Preface	v
Frederick Mosteller—A Brief Biography	
<i>Stephen E. Fienberg</i>	1
Bibliography	7
1. Unbiased Estimates for Certain Binomial Sampling Problems with Applications	
<i>M.A. Girshick, Frederick Mosteller, L.J. Savage</i>	57
2. On Some Useful “Inefficient” Statistics	
<i>Frederick Mosteller</i>	69
3. A k-Sample Slippage Test for an Extreme Population	
<i>Frederick Mosteller</i>	101
4. The Uses and Usefulness of Binomial Probability Paper	
<i>Frederick Mosteller, John W. Tukey</i>	111
5. The Education of a Scientific Generalist	
<i>Hendrik Bode, Frederick Mosteller, John W. Tukey, Charles Winsor</i>	147
6. Remarks on the Method of Paired Comparisons: I. The Least Squares Solution Assuming Equal Standard Deviations and Equal Correlations	
<i>Frederick Mosteller</i>	157
7. Remarks on the Method of Paired Comparisons: II. The Effect of an Aberrant Standard Deviation When Equal Standard Deviations and Equal Correlations Are Assumed	
<i>Frederick Mosteller</i>	163

8. Remarks on the Method of Paired Comparisons: III. A Test of Significance for Paired Comparisons when Equal Standard Deviations and Equal Correlations Are Assumed <i>Frederick Mosteller</i>	167
9. An Experimental Measurement of Utility <i>Frederick Mosteller, Philip Nogee</i>	179
10. A Mathematical Model for Simple Learning <i>Robert R. Bush, Frederick Mosteller</i>	221
11. A Model for Stimulus Generalization and Discrimination <i>Robert R. Bush, Frederick Mosteller</i>	235
12. The World Series Competition <i>Frederick Mosteller</i>	251
13. Principles of Sampling <i>William G. Cochran, Frederick Mosteller, John W. Tukey</i>	275
14. Stochastic Models for the Learning Process <i>Frederick Mosteller</i>	295
15. Factorial $\frac{1}{2}$: A Simple Graphical Treatment <i>Frederick Mosteller, D.E. Richmond</i>	309
16. A Comparison of Eight Models <i>Robert R. Bush, Frederick Mosteller</i>	317
17. Optimal Length of Play for a Binomial Game <i>Frederick Mosteller</i>	333
18. Tables of the Freeman-Tukey Transformations for the Binomial and Poisson Distributions <i>Frederick Mosteller, Cleo Youtz</i>	337
19. Understanding the Birthday Problem <i>Frederick Mosteller</i>	349
20. Recognizing the Maximum of a Sequence <i>John P. Gilbert, Frederick Mosteller</i>	355
21. The Distribution of Sums of Rounded Percentages <i>Frederick Mosteller, Cleo Youtz, Douglas Zahn</i>	399
22. The Expected Coverage to the Left of the ith Order Statistic for Arbitrary Distributions <i>Barry H. Margolin, Frederick Mosteller</i>	413

23. Bias and Runs in Dice Throwing and Recording: A Few Million Throws
Gudmund R. Iversen, Willard H. Longcor, Frederick Mosteller, John P. Gilbert, Cleo Youtz 417

24. An Empirical Study of the Distribution of Primes and Litters of Primes
Frederick Mosteller 435

25. A Conversation About *Collins*
William B. Fairley, Frederick Mosteller 445

26. Statistics and Ethics in Surgery and Anesthesia
John P. Gilbert, Bucknam McPeck, Frederick Mosteller 457

27. Experimentation and Innovations
Frederick Mosteller 473

28. New Statistical Methods in Public Policy. Part I: Experimentation
Frederick Mosteller, Gale Mosteller 487

29. Classroom and Platform Performance
Frederick Mosteller 499

30. The Clinician’s Responsibility for Helping to Improve the Treatment of Tomorrow’s Patients
Bucknam McPeck, John P. Gilbert, Frederick Mosteller 513

31. Innovation and Evaluation
Frederick Mosteller 515

32. Combination of Results of Stated Precision: I. The Optimistic Case
Frederick Mosteller, John W. Tukey 531

33. Combination of Results of Stated Precision: II. A More Realistic Case
Frederick Mosteller, John W. Tukey 549

34. Allocating Loss of Precision in the Sample Mean to Wrong Weights and Redundancy in Sampling with Replacement from a Finite Population
J.L. Hodges, Jr., Frederick Mosteller, Cleo Youtz 575

35. Reporting Clinical Trials in General Surgical Journals
John D. Emerson, Bucknam McPeck, Frederick Mosteller 583

36. Compensating for Radiation-Related Cancers by Probability of Causation or Assigned Shares <i>Frederick Mosteller</i>	597
37. Methods for Studying Coincidences <i>Persi Diaconis, Frederick Mosteller</i>	605
38. A Modified Random-Effect Procedure for Combining Risk Difference in Sets of 2×2 Tables from Clinical Trials <i>John D. Emerson, David C. Hoaglin, Frederick Mosteller</i>	623
39. The Case for Smaller Classes and for Evaluating What Works in the Schoolroom <i>Frederick Mosteller</i>	643
40. Frederick Mosteller and John W. Tukey: A Conversation <i>Moderated by Francis J. Anscombe</i>	647
