## Contents

<b>Personal Reminiscences of Georges Matheron</b>	
<i>Dietrich Stoyan</i> .....	V

<b>A few words about Georges Matheron (1930-2000)</b>	
<i>Jean Serra</i> .....	IX

<b>Introduction</b>	
<i>From the editors</i> .....	1

---

### Part I Geostatistics

---

<b>The genesis of geostatistics in gold and diamond industries</b>	
<i>Danie Krige, Wynand Kleingeld</i> .....	5

<b>Concepts and Methods of Geostatistics</b>	
<i>Jacques Rivoirard</i> .....	17

<b>Prediction by conditional simulation: models and algorithms</b>	
<i>Jean-Paul Chilès, Christian Lantuéjoul</i> .....	39

<b>Flow in porous media: An attempt to outline Georges Matheron's contributions</b>	
<i>J.P. Delhomme, G. de Marsily</i> .....	69

<b>Over Thirty Years of Petroleum Geostatistics</b>	
<i>Pierre Delfiner, André Haas</i> .....	89

<b>The expansion of environmental geostatistics</b>	
<i>Roberto Bruno, Chantal de Fouquet</i> .....	105

---

### Part II Random Sets

---

XIV    Contents

<b>Random Closed Sets</b>	
<i>I. Molchanov</i> .....	135
<b>The Boolean Model: from Matheron till Today</b>	
<i>Dietrich Stoyan, Klaus Mecke</i> .....	151
<b>Random Structures in Physics</b>	
<i>Dominique Jeulin</i> .....	183
<hr/>	
<b>Part III Mathematical Morphology</b>	
<b>Morphological Operators for the Segmentation of Colour Images</b>	
<i>Jean Serra</i> .....	223
<b>Automatic design of morphological operators</b>	
<i>Junior Barrera, Gerald J. F. Banon, Edward R. Dougherty</i> .....	257
<b>Morphological Decomposition Systems with Perfect Reconstruction: From Pyramids to Wavelets</b>	
<i>Henk J.A.M. Heijmans, John Goutsias</i> .....	279
<b>Morphological segmentation revisited</b>	
<i>Fernand Meyer</i> .....	315
<b>Ubiquity of the Distance Function in Mathematical Morphology</b>	
<i>Michel Schmitt</i> .....	349
<b>Partial Differential Equations for Morphological Operators</b>	
<i>Frederic Guichard, Petros Maragos, Jean-Michel Morel</i> .....	369
<b>Index</b> .....	391
