

Contents

	Page
1 Asymptotics in General.....	1
2 Characteristic Functions and the Berry–Esseen Theorem.....	7
3 Edgeworth Series.....	31
4 Saddlepoint Series for Densities.....	63
5 Saddlepoint Series for Distribution Functions.....	89
6 Multivariate Expansions.....	109
7 Conditional Distribution Approximations.....	139
8 Applications to Wald, Likelihood Ratio, and Maximum Likelihood Statistics.....	165
9 Other Topics.....	189
10 Computational Aids.....	199
Bibliography.....	205
Author Index.....	215
Subject Index.....	217
