## CONTENTS

Acknowledgements List of Contributors		vii ix
Editors' Prelude:	Researching mathematics learning: the need for a new approach	1
Chapter 1:	Mathematics learners in transition Guida de Abreu, Alan Bishop and Norma Presmeg	7
Chapter 2:	Immigrant children learning mathematics in mainstream schools Núria Gorgorió, Núria Planas and Xavier Vilella	23
Chapter 3:	The transition experience of immigrant secondary school students: dilemmas and decisions Alan Bishop	53
Chapter 4:	Thinking about mathematical learning with Cabo Verde Ardinas Madalena Santos and João Filipe Matos	81
Chapter 5:	Exploring ways parents participate in their children's school mathematical learning: cases studies in multiethnic primary schools Guida de Abreu, Tony Cline and Tatheer Shamsi	123
Chapter 6:	Transitions between home and school mathematics: rays of hope amidst the passing clouds Marta Civil and Rosi Andrade	149
Editors' Interlude:	Theoretical orientations to transitions	171
Chapter 7:	Towards a cultural psychology perspective on transitions between contexts of mathematical practices Guida de Abreu	173
Chapter 8:	Mathematical acculturation, cultural conflicts, and transition Alan Bishop	193
Chapter 9:	Shifts in meaning during transitions Norma Presmeg	213
