About the Authors ..... *xv*
About the Technical Reviewer ..... *xvi*
Acknowledgments ..... *xvii*
Introduction ..... *xix*

Chapter 1 Introduction to BEA WebLogic Portal *1*

High-Level Architecture *2*
Portal Concepts *4*
Portal Tools *13*
Summary *30*

Chapter 2 Building a Portal from Scratch *31*

WebLogic Portal Architecture *31*
Creating a New Portal Application *50*
Summary *78*

Chapter 3 Basic Java Concepts *79*

Servlets *79*
Java Server Pages *85*
JavaBeans *99*
Summary *110*

Chapter 4 Portals, Pages, and Portlets 111

What Is a Portal? 111
What Is a Portal Page? 112
Overview of Portal Page Components 114
Creating a Portal Domain 124
Building a Portal 125
Portal Management Tools 129
Building a Basic Portlet 130
Summary 154

Chapter 5 How to Customize the Look and Feel of a Portal 155

Framework JSPs 156
Portal Pages 161
Portlets 167
Skins 174
Layouts 185
Summary 198

Chapter 6 Using Content 199

BEA Content Manager File Directories and Database Tables 200
Loading Data 204
Verifying the Configuration of the Content Manager 206
Displaying Content with Content Taglibs 211
Content Selectors 226
Integrating Third-Party Content Management Systems 239
Summary 241

Chapter 7 Incorporating Webflow in Portlet Navigation 243

Introduction to Webflow 243
Basic Components of Webflow 244
Additional Webflow Components 246
The Webflow Editor 250
Using the Webflow Editor 264
Using Webflow Events Within a Portlet 272
Webflow Walkthrough Example 276
Summary 298

Chapter 8 Processing Input with Webflow 299

Input Processors 299
Validation Support 301
Pipeline Session 307
Pipeline Components 310
Exploring the Webflow Tag Library 312
Exploring the Portlet Tag Library 330
The Pipeline Editor 331
Input Processing Walkthrough Examples 342
Summary 364

Chapter 9 Implementing a Front Controller 365

What Is a Front Controller? 365
Advantages of Using Front Controllers 367
Types of Front Controllers 367
How Webflow Fits In 370
Front Controller Example 371
Putting It All Together 378
The Results 378
Summary 381

Chapter 10 EJBs Within the Portal 383

EJB Overview 383
Stateless Session Bean Example 385
Building the EJB Client Code 402
Summary 404

Chapter 11 Portal Security 405

User Management 406
Group Management 410
Access Control with Group Portals 415
Access Control Using Entitlements 425
Controlling Access to Portlets 428
Summary 428

Chapter 12 Portal Deployment *429*

Deployment Process *429*
Establishing Deployment Environments *431*
Manual Release Deployment *432*
Deployment Files *436*
Automated Deployment *438*
Summary *444*

Chapter 13 Personalization Services *445*

User Profiles *445*
Personalizing Content *464*
Summary *479*

Chapter 14 Campaign Services *481*

Campaign Prerequisites *481*
Setting Up E-Mail Messages *483*
Setting Up Campaigns *487*
Deactivating and Reactivating Campaigns *502*
Running the Campaign Created *502*
Summary *505*

Chapter 15 Miscellaneous Topics *507*

Content Management Configuration *507*
JSP Configuration *512*
Using Connection Pools *514*
Configuring E-Mail *520*
Summary *523*

Chapter 16 Debugging *525*

Instrumenting Java Code *525*
Debugging Java Code *529*
The Logging Mechanism *532*
Console Logging Settings *536*
Summary *545*

Chapter 17 Best Practices *547*

Design Best Practices *547*
Portlet Best Practices *548*
JSP Best Practices *549*
Servlet Best Practices *551*
EJB Best Practices *554*
Java Programming Best Practices *556*
Summary *561*

Index *563*
