# Contents

<b>Selected Notation and Abbreviations</b> .....	xv
<b>1 Markov Decision Processes</b> .....	1
1.1 Optimality Equations .....	3
1.2 Policy Iteration and Value Iteration .....	5
1.3 Rolling-horizon Control .....	7
1.4 Survey of Previous Work on Computational Methods .....	8
1.5 Simulation .....	11
1.6 Preview of Coming Attractions .....	14
1.7 Notes .....	15
<b>2 Multi-stage Adaptive Sampling Algorithms</b> .....	17
2.1 Upper Confidence Bound Sampling .....	19
2.1.1 Regret Analysis in Multi-armed Bandits .....	19
2.1.2 Algorithm Description .....	20
2.1.3 Alternative Estimators .....	21
2.1.4 Convergence Analysis .....	24
2.1.5 Numerical Example .....	31
2.2 Pursuit Learning Automata Sampling .....	40
2.2.1 Algorithm Description .....	41
2.2.2 Convergence Analysis .....	42
2.2.3 Application to POMDPs .....	51
2.2.4 Numerical Example .....	53
2.3 Notes .....	59
<b>3 Population-based Evolutionary Approaches</b> .....	61
3.1 Evolutionary Policy Iteration .....	63
3.1.1 Policy Switching .....	63
3.1.2 Policy Mutation and Population Generation .....	65
3.1.3 Stopping Rule .....	65
3.1.4 Convergence Analysis .....	66

3.1.5	Parallelization .....	67
3.2	Evolutionary Random Policy Search .....	67
3.2.1	Policy Improvement with Reward Swapping .....	68
3.2.2	Exploration .....	71
3.2.3	Convergence Analysis .....	73
3.3	Numerical Examples .....	76
3.3.1	A One-dimensional Queueing Example .....	76
3.3.2	A Two-dimensional Queueing Example .....	85
3.4	Extension to Simulation-based Setting .....	87
3.5	Notes .....	87
<b>4</b>	<b>Model Reference Adaptive Search .....</b>	<b>89</b>
4.1	The Model Reference Adaptive Search Method .....	91
4.1.1	The MRAS <sub>0</sub> Algorithm (Idealized Version) .....	93
4.1.2	The MRAS <sub>1</sub> Algorithm (Adaptive Monte Carlo Version) .....	96
4.1.3	The MRAS <sub>2</sub> Algorithm (Stochastic Optimization) .....	98
4.2	Convergence Analysis .....	101
4.2.1	MRAS <sub>0</sub> Convergence .....	101
4.2.2	MRAS <sub>1</sub> Convergence .....	107
4.2.3	MRAS <sub>2</sub> Convergence .....	116
4.3	Application to MDPs via Direct Policy Learning .....	129
4.3.1	Finite-horizon MDPs .....	130
4.3.2	Infinite-horizon MDPs .....	130
4.3.3	MDPs with Large State Spaces .....	132
4.3.4	Numerical Examples .....	132
4.4	Application to Infinite-horizon MDPs in Population-based Evolutionary Approaches .....	141
4.4.1	Algorithm Description .....	141
4.4.2	Numerical Examples .....	143
4.5	Application to Finite-horizon MDPs Using Adaptive Sampling .....	146
4.6	Notes .....	148
<b>5</b>	<b>On-line Control Methods via Simulation .....</b>	<b>149</b>
5.1	Simulated Annealing Multiplicative Weights Algorithm .....	153
5.1.1	Basic Algorithm Description .....	154
5.1.2	Convergence Analysis .....	155
5.1.3	Convergence of the Sampling Version of the Algorithm .....	158
5.1.4	Numerical Example .....	160
5.1.5	Simulated Policy Switching .....	164
5.2	Rollout .....	165
5.2.1	Parallel Rollout .....	166
5.3	Hindsight Optimization .....	168
5.3.1	Numerical Example .....	169
5.4	Notes .....	174
