<b>1</b>	<b>A Short Journey to the Realm of Corrosion</b> .....	1
1.1	Introduction .....	1
1.1.1	Definition of Corrosion .....	1
1.2	Electrochemical Corrosion: A Brief Introduction.....	2
1.3	When Does Corrosion Happen? .....	4
1.4	Corrosion Forecast.....	5
1.4.1	Anodic Polarisation (Anodic Polarisation Reaction) .....	6
1.4.2	Cathodic Polarisation (Cathodic Polarisation Reaction) .....	7
1.5	Summary and Conclusions .....	8
	References.....	8
	Further Reading .....	8
<b>2</b>	<b>Technical Mitigation of Corrosion: Corrosion Management</b> .....	9
2.1	Introduction .....	9
2.1.1	Corrosion Management: A Technical Approach.....	9
2.2	The Rationale for Using Coatings and Linings .....	9
2.3	The Rationale of Anodic and Cathodic Protection .....	10
2.3.1	Anodic Protection .....	10
2.3.2	Cathodic Protection (CP) .....	10
2.4	Use of Inhibitors .....	12
2.4.1	Anodic Inhibitors .....	12
2.4.2	Cathodic Inhibitors.....	13
2.4.3	Mixed Effect Inhibitors .....	14
2.5	Material Selection and Design Improvement .....	14
2.6	Summary and Conclusions .....	15
	References.....	16

- 3 Non-technical Mitigation of Corrosion:**
  - Corrosion Knowledge Management..... 17**
  - 3.1 Introduction ..... 17
  - 3.2 Corrosion (Knowledge) Management: A Managerial Approach... 18
    - 3.2.1 Importance of Defining “Resources” and “Targets” ..... 18
    - 3.2.2 Why Should We Care About Corrosion?..... 20
  - 3.3 Components of Corrosion Knowledge Management as a Managerial Tool ..... 22
  - 3.4 Conclusion and Summary..... 26
  - References..... 26
  
- 4 Microbiologically Influenced Corrosion (MIC) ..... 29**
  - 4.1 Introduction ..... 29
  - 4.2 Definition of MIC..... 30
  - 4.3 Importance of MIC ..... 31
  - 4.4 Historical Profile of Advances in Understanding MIC..... 32
  - 4.5 Categorising Bacteria ..... 34
  - 4.6 Biofilm Formation and Its Stages ..... 36
  - 4.7 How Biofilms Demonstrate Their Effects on Corrosion ..... 42
  - 4.8 Enhancing Corrosion ..... 42
    - 4.8.1 Biofilm Models ..... 42
  - 4.9 Corrosion Deceleration Effect of Biofilms ..... 46
  - 4.10 The Bacteria Involved in MIC..... 48
  - 4.11 Sulphate-reducing Bacteria (SRB) ..... 49
    - 4.11.1 Mechanisms of MIC by SRB ..... 51
    - 4.11.2 Examples of Corrosion by SRB ..... 54
    - 4.11.3 Stress Corrosion Cracking (SCC) and SRB ..... 55
  - 4.12 Iron-reducing Bacteria..... 58
    - 4.12.1 Why Is Microbial Reduction of Iron Important?..... 58
    - 4.12.2 Contradicting Impacts of IRB on Corrosion ..... 60
  - 4.13 Magnetic Bacteria..... 63
  - 4.14 Summary and Conclusions ..... 65
  - References..... 66
  
- 5 How Does a System Become Vulnerable to MIC? ..... 73**
  - 5.1 Introduction ..... 73
  - 5.2 General Points Regarding the Vulnerability of Industrial Systems ..... 73
  - 5.3 Important Systems/Working Conditions Leading to MIC..... 74
  - 5.4 Physico-mechanical Factors and Their Effects on MIC ..... 75
    - 5.4.1 Chemical Factors ..... 77
    - 5.4.2 Water Treatment ..... 77

5.4.3	Oxygen.....	77
5.4.4	Nutrients and the Ease of Reaching Them.....	77
5.4.5	Alloying Elements and Their Impacts.....	79
5.4.6	Welding.....	80
5.4.7	Impact of Hydrotesting .....	81
5.5	Some Points Regarding the Feasibility of Mitigation of Hydrotesting-assisted MIC.....	83
5.6	Summary and Conclusions .....	86
	References.....	86
<b>6</b>	<b>How Is MIC Detected and Recognised?.....</b>	<b>89</b>
6.1	Introduction .....	89
6.2	Recognition Methods.....	90
6.2.1	Investigating Vulnerable Systems and Components .....	90
6.2.2	Pit Morphology .....	90
6.2.3	Mineralogical Finger Prints.....	91
6.2.4	Appearance and Colour of Corrosion Products.....	93
6.2.5	Characteristics of Microbial Attack .....	93
6.3	Detection Methods.....	96
6.3.1	Culturing and Its Alternatives .....	96
6.3.2	Quick (or Rapid) Check Tests.....	99
6.3.3	Electrochemical Recognition Methods and Their Application to MIC.....	101
6.4	Summary and Conclusions .....	103
	References.....	105
<b>7</b>	<b>Examples of Some Systems Vulnerable to MIC .....</b>	<b>109</b>
7.1	Introduction .....	109
7.2	Buried Metallic Pipelines .....	110
7.3	Maritime Piled Structures (Jetty and Wharves).....	113
7.4	Offshore Platforms .....	116
7.5	Firewater Lines.....	118
7.6	Summary and Conclusions .....	119
	References.....	120
<b>8</b>	<b>Examples of Some Materials Vulnerable to MIC .....</b>	<b>123</b>
8.1	Introduction .....	123
8.1.1	Copper and Cupronickels.....	123
8.1.2	Duplex Stainless Steels .....	125
8.1.3	Concrete .....	126
8.2	Summary and Conclusions .....	130
	References.....	130

<b>9</b>	<b>How Is MIC Treated?</b> .....	133
9.1	Introduction .....	133
9.2	Physical-mechanical Treatments .....	134
9.2.1	Pigging .....	134
9.2.2	Use of Ultraviolet Radiation .....	136
9.2.3	Ultrasonic Treatment.....	137
9.3	Chemical Treatments.....	137
9.3.1	Pros and Cons of Some Biocides .....	138
9.3.2	A Note on Dual Biocide Treatment .....	145
9.4	Electrochemical Methods .....	146
9.4.1	Cathodic Protection (CP) .....	146
9.4.2	Coating.....	152
9.5	Biological Methods .....	153
9.6	Summary and Conclusions .....	155
	References.....	155
	<b>Glossary</b> .....	159
	<b>Index</b> .....	161
