Foreword by Martin Bell	v
Preface to the Second Edition: Why This Book, Why Now?	vii
Preface to the First Edition, <i>Ballistic Trauma: Clinical Relevance in Peace and War</i>	ix
Contributors	xv

Section 1 Introduction, Background, and Science

1 The International Small Arms Situation: A Public Health Approach	3
<i>Neil Arya and Wendy L. Cukier</i>	
2 Guns and Bullets	31
Part 1 How Guns Work	31
<i>Mark Byers, James M. Ryan, and Peter F. Mahoney</i>	
Part 2 The Effects of Bullets	40
<i>Donald Jenkins and Paul Dougherty</i>	
3 Bombs, Mines, Blast, Fragmentation, and Thermobaric Mechanisms of Injury	45
<i>Toney W. Baskin and John B. Holcomb</i>	
4 Ballistic Protection	67
<i>Graham Cooper and Philip Gotts</i>	
5 Forensic Aspects of Ballistic Injury	91
<i>Jeanine Vellema and Hendrik Johannes Scholtz</i>	
6 Ballistic Trauma, Armed Violence, and International Law	122
<i>Robin M. Coupland</i>	

Section 2 Clinical Care

7	Prehospital Care	137
	<i>Mark Byers and Peter F. Mahoney</i>	
8	Resuscitation and Anesthesia for the Ballistic Casualty	151
	<i>Paul R. Wood, Adam J. Brooks, and Peter F. Mahoney</i>	
9	Clinical Ballistics: Surgical Management of Soft-Tissue Injuries—General Principles	168
	<i>Donald Jenkins, Paul Dougherty, and James M. Ryan</i>	
10	Damage Control	180
	<i>Benjamin Braslow, Adam J. Brooks, and C. William Schwab</i>	
11	Neck Injury	209
	<i>John P. Pryor and Bryan Cotton</i>	
12	Thoracic Injury	241
	<i>Douglas M. Bowley, Elias Degiannis, and Stephen Westaby</i>	
13	Penetrating Genitourinary Trauma: Management by the Nonspecialist Surgeon	270
	<i>Jay J. Doucet and David B. Hoyt</i>	
14	Abdomen and Pelvis	299
	<i>Adam J. Brooks, Ian Civil, Benjamin Braslow, and C. William Schwab</i>	
15	Management of Ballistic Trauma to the Head	325
	<i>Chris J. Neal, Geoffrey S.F. Ling, and James M. Ecklund</i>	
16	Spinal Injury	348
	<i>Neil Buxton</i>	
17	Limb Injuries	356
	<i>Jonathan C. Clasper</i>	
18	Vascular Injury	381
	<i>Elias Degiannis and Martin D. Smith</i>	
19	Ballistic Trauma in Children	396
	<i>Graeme J. Pitcher</i>	
20	Injuries in Pregnancy	418
	<i>Paul D. Wallman and Adam J. Brooks</i>	

21	Burns	424
	<i>Alan R. Kay</i>	
22	Intensive Care of the Trauma Patient with Ballistic Injuries	445
	<i>Spiros G. Frangos, Marilee Freitas, and Heidi Frankel</i>	
23	Imaging Triage for Ballistic Trauma	465
	<i>Stephen C. Gale and Vicente H. Gracias</i>	
24	Training to Manage Ballistic Trauma	486
	<i>Kenneth D. Boffard and Nigel R.M. Tai</i>	

Section 3 Resource Limited Situations

25	Hospital and System Assessment	513
	<i>Jenny Hayward-Karlsson</i>	
26	Triage	527
	<i>Adriaan Hopperus Buma and Walter Henny</i>	
27	Managing Ballistic Injury in the Military Environment: The Concept of Forward Surgical Support	535
	<i>Donald Jenkins, Paul Dougherty, and James M. Ryan</i>	
28	Managing Ballistic Injury in the NGO Environment	541
	<i>Ari K. Leppäniemi</i>	

Section 4 Expert Tutorials and Hard Lessons

A	Ballistic Missile Injuries in the Siege of Sarajevo 1992–1995	569
	<i>John P. Beavis</i>	
B	Vascular Injuries in the Groin	576
	<i>David J. Williams</i>	
C	Conflict Surgery	579
	<i>David J. Williams</i>	
D	Surgery in the Camps	585
	<i>Pauline A. Cutting</i>	

xiv	Contents	
E	Ballistics—Lessons Learned	592
	<i>Malcolm Q. Russell</i>	
F	African Education	594
	<i>Adam J. Brooks</i>	
G	The Role of Intensive Care in the Management of Ballistic Trauma in War	596
	<i>Matthew J. Roberts</i>	
H	Survivors and Shooters	599
	<i>Ian P. Palmer</i>	
I.	Rectal Examination Revisited	606
	<i>Richard A. Donaldson</i>	
 Section 5 And Finally		
	Where a Trauma Surgeon Can Go Ballistic?	611
	<i>Michael E. Sugrue</i>	
	Index	627
