

CONTENTS

List of contributors IX

Introduction 1

Methods 2

Section I. Surface anatomy of the brain stem, cerebellum, and fourth ventricle 5

A. General remarks 5

B. Brain stem surface 9

C. Cerebellar surface 16

D. Relationship between brain stem and cerebellum; emergence of cranial nerve roots 29

E. The fourth ventricle 34

F. The brain stem and the cerebellum within the posterior cranial fossa ??

Section II. Internal architecture of the brain stem with key axial sections 53

Section III. Functional organization of the brain stem 95

Section IV. Structure and function of the cerebellum 117

A. Structure of the cerebellum 117

B. Functions of the cerebellum 136

Section V. Structural organization of the mesencephalic-diencephalic junction 149

Section VI. Vascularization of the brain stem 159

A. Superficial vascularization 159

B. Deep vascularization with MRI correlation 199

Section VII. Intrinsic vascular territories of the brain stem with infarct correlation 219

Section VIII. Magnetic Resonance Microscopy (9.4 Tesla) of formalin-fixed human cadaver specimens 247

A. Medulla 252

B. Ponto-Medullary junction 286

C. Ponto-Mesencephalic junction 319

D. Mesencephalic-Diencephalic junction 353

E. Hypothalamus and Epithalamus 377

F. Habenulo-interpeduncular tract 394

G. Metathalamus 401

Section IX. The cranial nerves: Intramedullary and cisternal segments 415

- A. Hypoglossal nerve (CN XII) 421
- B. Accessory, Vagal and Glossopharyngeal nerves (CN XI, X, IX) 426
- C. Facial and Vestibulocochlear nerves (CN VII, VIII) 434
- D. Abducens nerve (CN VI) 443
- E. Trigeminal nerve (CN V) 449
- F. Trochlear nerve (CN IV) 461
- G. Oculomotor nerve (CN III) 469
- H. Olfactory and Optic “nerves” (CN I, II) 475

Section X. Advanced structural MR 475

- A. Imaging of neuromelanin 475
- B. Susceptibility-weighted imaging 482
- C. Diffusion tensor imaging in vivo at 3 Tesla 498
- D. Diffusion tensor imaging of fixed tissue at 9.4 Tesla 549

Section XI. Correlating 3T clinical MRI with serial three-dimensional sectional anatomy 561

- A. Axial (horizontal) sections 561
- B. Coronal (frontal) sections 671
- C. Sagittal (lateral) sections 777
