
Contents

New Results on Absorbing Layers and Radiation Boundary Conditions <i>Thomas Hagstrom</i>	1
Fast, High-Order, High-Frequency Integral Methods for Computational Acoustics and Electromagnetics <i>Oscar P. Bruno</i>	43
Galerkin Boundary Element Methods for Electromagnetic Scattering <i>Annalisa Buffa, Ralf Hiptmair</i>	83
Computation of resonance frequencies for Maxwell equations in non-smooth domains <i>Martin Costabel, Monique Dauge</i>	125
<i>hp</i>-Adaptive Finite Elements for Time-Harmonic Maxwell Equations <i>Leszek Demkowicz</i>	163
Variational Methods for Time-Dependent Wave Propagation Problems <i>Patrick Joly</i>	201
Some Numerical Techniques for Maxwell's Equations in Different Types of Geometries <i>Bengt Fornberg</i>	265
On Retarded Potential Boundary Integral Equations and their Discretisation <i>Tuong Ha-Duong</i>	301
Inverse Scattering Theory for Time-Harmonic Waves <i>Andreas Kirsch</i>	337
Herglotz Wave Functions in Inverse Electromagnetic Scattering Theory <i>David Colton, Peter Monk</i>	367

Appendix: Colour Figures
