Table of Contens

Preface XI
P.1 Outline of the Book XII
P.2 Who should Read this Book? XIII
P.3 Relevant Resources XIV
P.4 Acknowledgements XIV

1. Introduction 1
1.1 Database Systems 2
1.1.1 Schema Evolution in Object-Oriented Databases 3
1.1.1.1 Class Hierarchy Modification 3
1.1.1.2 Class Structure Modification 5
1.1.1.3 Backward and Forward Compatibility 6
1.1.1.4 Need for Dynamic Changes 10
1.1.2 Versioning and Workgroup Support 10
1.1.3 Transaction Processing 12
1.2 Aspect-Oriented Database Systems 13
1.2.1 Crosscutting Concerns in Database Systems 13
1.2.2 Fundamentals of Aspect-Oriented Database Systems 14
1.2.3 Existing Aspect-Oriented Database Systems 17
1.2.3.1 AODBs using AOP in their Implementation and Operation 17
1.2.3.2 AODBs Supporting Aspect Persistence 18
1.2.3.3 AODBs or Frameworks Supporting Separation of PersistenceCode from Application Logic 18
1.2.3.4 Facets of the Database-AOP Relationship Addressed by Current AODBs 19
1.3 Conclusion 19

2. Aspect-Oriented Programming (AOP) 21
2.1 Separation of Concerns 21
2.2 Addressing Crosscutting Concerns with AOP 23
2.2.1 Aspect Languages 26

AODB.book Seite VIII Freitag, 31. Oktober 2003 12:53 12

2.2.2 Composition Filters 29
2.2.3 Adaptive Programming 31
2.2.4 Hyperspaces 33
2.2.5 Reflective Approaches 34
2.2.6 Hybrid Approach 35
2.3 Aspect-Oriented Software Development 36
2.4 Conclusion 37

3. Crosscutting Concerns in Database Systems 39
3.1 Crosscutting Concerns at DBMS Level 40
3.1.1 Instance Adaptation Approach 42
3.1.2 Schema Evolution Model 43
3.1.3 Transaction Model 45
3.1.4 Other Crosscutting Concerns at DBMS Level 46
3.2 Crosscutting Concerns at Database Level 46
3.2.1 Links Among Persistent Entities 47
3.2.2 Versioning Information 48
3.2.3 Instance Adaptation Routines 49
3.2.4 Other Crosscutting Concerns at Database Level 51
3.3 Conclusion 51

4. Applying AOP in Database Systems 53
4.1 A Model for AOP in Database Systems 53
4.2 AOP at DBMS Level 56
4.2.1 Instance Adaptation Approach 56
4.2.1.1 Customisable Instance Adaptation in SADES 56
4.2.1.2 Customisable Instance Adaptation in AspOEv 60
4.2.2 Schema Evolution Model 63
4.2.3 Transaction Model 64
4.3 AOP at Database Level 67
4.3.1 Links among Persistent Entities 67
4.3.1.3 Overview of SADES Architecture 67
4.3.1.2 Separation of Links using Composition Filters 70
4.3.1.3 Change Propagation and Referential Integrity 76
4.3.2 Versioning 78
4.3.3 Instance Adaptation Routines 81
4.3.3.4 Instance Adaptation Routines in SADES 81
4.3.3.2 Instance Adaptation Routines in AspOEv 86

AODB.book Seite IX Freitag, 31. Oktober 2003 12:53 12

4.4 Change Propagation: DBMS Level to Database Level 87
4.5 Cost-effectiveness 88
4.6 Conclusion 88

5. Persistent Aspects 91
5.1 Need for Aspect Persistence 91
5.2 Persistent Aspect Stores 93
5.2.1 An Aspect Store Based on an Object-Oriented Database .. 94
5.2.1.1 PersAJ: An Aspect Store Based on AspectJ and Jasmine ... 97
5.2.2 An Aspect Store Based on a Relational Database 99
5.2.2.2 An Aspect Store for AspectJ using SQL-92 Databases 100
5.3 Aspect Composition in a Persistent Environment 111
5.3.3 Exploiting Composition Mechanisms of Existing AOP Techniques 111
5.3.2 Building Composition Mechanisms into the DBMS 112
5.3.2.1 Persistent Aspect Structures 113
5.3.2.2 Weave-on-demand and Weave Histories 114
5.3.2.3 Weaver for the SADES Object Database Evolution System 116
5.4 Applications of Aspect Persistence 117
5.5 Conclusion 117

6. Persistence as an Aspect 119
6.1 A Bibliography Application 120
6.2 Aspectising Persistence 121
6.2.1 Database Access 122
6.2.1.1 Connection 124
6.2.1.2 Storage and Update 126
6.2.1.3 Retrieval 127
6.2.1.4 Deletion 129
6.2.1.5 Transactions 130
6.2.1.6 Meta-data Access 132
6.2.2 SQL Translation 132
6.2.3 The Emerging Persistence Framework 136
6.3 Analysis of the Persistence Aspectisation 137
6.3.1 Using Other Persistence Mechanisms 137
6.3.2 Reflection and Other AOP Techniques 137
6.3.3 Aspect Interaction 139

AODB.book Seite X Freitag, 31. Oktober 2003 12:53 12

6.4 Other Approaches Aspectising Persistence and Related Concerns 140
6.5 Conclusion 142

7. Conclusion and Outlook 145
