

Table of Contents

<i>Soft Computing for Reservoir Characterization</i> M. Nikravesh and F. Aminzadeh	1
<i>An Approach to the Mathematical Theory of Perception-Based Information</i> V. Korotkikh	80
<i>Fuzzy Neural Networks Based on Fuzzy Logic Algebras Valued Relations</i> R. Tagliaferri, A. Ciaramella, A. Di Nola and R. Bělohlávek	116
<i>Simulating Continuous Dynamical Systems under Conditions of Uncertainty: the Probability and the Possibility Approaches</i> G. Bontempi	130
<i>Resolution of Min-Max Fuzzy Relational Equations</i> K. Peeva	153
<i>Fuzzy Relation Equations with Words</i> V. Novák	167
<i>A Normative View on Possibility Distributions</i> C. Carlsson, R. Fuller and P. Majlender	186
<i>FREs: the ODEs and PDEs of the Fuzzy Modelling Paradigm</i> B. De Baets	206

<i>Equations and Inequalities with BK-Products of Relations</i> L. J. Kohout	225
<i>Decomposition of Fuzzy Relations and Functional Relations</i> E. Sanchez	251
<i>Introduction to Modeling of Hydrogeologic Systems Using Fuzzy Differential Equations</i> B. A. Faybishenko	267
<i>Construction of Granular Derivatives and Solution of Granular Initial Value Problem</i> I. Batyrshin	285
<i>Numerical Solutions of Fuzzy Partial Differential Equations and Its Applications in Computational Mechanics</i> A. Pownuk	308
