

Contents

1 Introduction	1
1.1 Foundation of book	1
1.2 Philosophy of the book	3
1.3 Methodology of the book	4
1.4 Outline of the book	5
1.4.1 Fundamentals: Part I	5
1.4.2 Interrelations: Part II	7
1.4.3 Integration: Part III	8
Part - I: Fundamentals	9
2 Case-based Reasoning	11
2.1 Introduction	11
2.2 Knowledge and Experience	12
2.2.1 Knowledge	12
2.2.2 Experience	13
2.2.3 A Model for Abstraction from Data and Trick	14
2.2.4 Summary	16
2.3 From Expert Systems to CBR Systems	16
2.3.1 Expert Systems	16
2.3.2 Case-based Reasoning: A Brief Introduction	18
2.3.3 A Comparison of RBESs and CBR Systems	20
2.3.4 Summary	23
2.4 Process Models of Case Based Reasoning	23
2.4.1 Allen's Process Model	23
2.4.2 Aamodt-Plaza Model- -Model of CBR	24
2.4.3 Leake's Model	25
2.4.4 Further Remarks on the Existing Process Models of CBR	26
2.5 Case-based Reasoning: A Process Reasoning	26
2.5.1 Introduction	27
2.5.2 CBR, Traditional Reasoning, and Fuzzy Reasoning	27
2.5.3 CBR as Process Reasoning	29
2.5.4 Summary	30
2.6 Case Representation	30
2.6.1 Tuple-based Case Representation	30
2.6.2 Rule-based Case Representation	31

2.6.3 Object-oriented Case Representation	32
2.6.4 Summary	34
2.7 Case Indexing and Case Retrieval	34
2.7.1 Case Indexing	34
2.7.2 Case Retrieval	34
2.7.3 Summary	36
2.8 Case Adaptation and Case Evaluation	36
2.8.1 Overview of Case Adaptation	36
2.8.2 A Logical Basis of Case Adaptation	38
2.8.3 A Cyclic Case Adaptation Model	38
2.8.4 Summary	39
2.9 Experience-Based Reasoning	40
2.10 Concluding Remarks	41
3 E-Commerce	43
3.1 Introduction	43
3.2 Traditional Commerce vs E-Commerce	44
3.2.1 Traditional Commerce	45
3.2.2 Definition of E-Commerce	47
3.2.3 Advantages and Disadvantages of E-commerce	48
3.2.4 Evolution of E-Commerce	49
3.3 E-Market and its Characteristics	50
3.4 Three Chains for E-Commerce	51
3.4.1 Value Chain	52
3.4.2 Supply Chain (SC)	53
3.4.3 Agent Chain	54
3.5 Transaction-based E-Commerce	57
3.5.1 Business to Business (B2B) E-commerce	57
3.5.2 Business to Consumer (B2C) E-Commerce	58
3.5.3 Consumer to Consumer (C2C) E-commerce	59
3.5.4 Summary	60
3.6 Information Overload and Search	60
3.6.1 Information Overload	60
3.6.2 Search Engines	61
3.6.3 Summary	62
3.7 Information Brokerage	62
3.8 Concluding Remarks	64
4 Intelligent Agents and Multiagent Systems	67
4.1 Introduction	67
4.2 Intelligent Agents	68
4.2.1 What is an Intelligent Agent?	68
4.2.2 Features of Intelligent Agents	71
4.2.3 Intelligence Level of Intelligent Agents	74
4.3 Mobile Agents	75
4.4 Intelligent Brokers	76

4.4.1 What is an Intelligent Broker ?	76
4.4.2 Features of Intelligent Brokers	78
4.4.3 Information Broker	78
4.5 Multiagent Systems	79
4.5.1 Cooperation	81
4.5.2 Coordination	81
4.5.3 Communication	82
4.5.4 Relationship of Coordination, Cooperation and Communication	84
4.5.5 Summary	85
4.6 ES = MAS ?	85
4.6.1 Expert Systems	85
4.6.2 Comparison of ES and MAS	88
4.6.2.1 Goals	88
4.6.2.2 From ES to MAS	89
4.6.2.3 From MAS to ES	89
4.6.2.4 Architectures	90
4.6.3 Summary	91
4.7 Architecture of Multiagent Systems	92
4.8 Concluding Remarks	95
5 A General Theory of Case Based Reasoning	97
5.1 Introduction	97
5.2 Similarity and Metrics in Case-based Reasoning	98
5.2.1 Introduction	99
5.2.2 Similarity Relations	100
5.2.3 Fuzzy Similarity Relations	101
5.2.4 Metric and Metric Space	104
5.2.5 Similarity and the Nearest Neighbour Algorithm	104
5.2.6 Similarity and Metrics	106
5.2.7 Similarity Metrics	107
5.2.8 Relationships between Similarity Metrics and Traditional Metrics ...	109
5.2.9 Local Similarity vs Global Similarity	115
5.2.10 Summary	116
5.3 Case Base Building with Similarity Relations	117
5.3.1 Introduction	117
5.3.2 Possible World of Problems and Solutions	118
5.3.3 Similarity Classes on the Possible World	119
5.3.4 Case and Case Base Building	120
5.3.5 Refining Case Bases	124
5.3.6 Case-base Building based on Fuzzy Similarity Relations	128
5.3.7 Summary	132
5.4 R^5 Model for Case-based Reasoning	132
5.5 Abductive Case-based Reasoning	134
5.5.1 Introduction	134
5.5.2 Abduction and Deduction	135

5.5.3 Abductive CBR and Deductive CBR	140
5.5.4 Integration of Abductive CBR and Deductive CBR	143
5.5.5 Summary	146
5.6 Rule-based Models for Case Retrieval	146
5.6.1 Case Retrieval with Similarity Relations	147
5.6.2 Case Retrieval based on Similarity Metrics	150
5.6.3 Abductive Case Retrieval vs Deductive Case Retrieval	153
5.6.4 Summary	154
5.7 Fuzzy Rule-based Case Retrieval	155
5.7.1 Uncertainty and Incompleteness in CBR	155
5.7.2 Similarity Neighbourhood and Similarity Uniform Mapping	155
5.7.3 Fuzzy Rule-based Models for Case Retrieval	156
5.7.4 Summary	158
5.8 Concluding Remarks	158
Part - II: Interrelations	161
6 CBR in E-Commerce	163
6.1 Introduction	163
6.2 A General Architecture of Web-Based CBR Systems	164
6.3 A Unified Logical Model of CBR-Based E-Commerce Systems	166
6.3.1 A Logical Model for Case Retrieval	166
6.3.2 A Logical Analysis for Case Reuse and Case Recommendation	167
6.3.3 A Cyclical Model for Case Recommendation	168
6.3.4 A Cyclical Model for Case Adaptation Including Solution Adaptation	169
6.3.5 Further Comments to Problem Adaptation and Solution Adaptation	171
6.3.6 A Cyclical Model for Problem Adaptation and Solution Adaptation	172
6.4 Intelligent Sales Support with CBR	175
6.4.1 A General Model for Intelligent Sales Support with CBR	175
6.4.2 CBR Supports Sales Staff for Sales Support	177
6.4.3 CBR-based Catalog in Analog Devices	178
6.4.4 Summary	179
6.5 Product Recommendation	179
6.5.1 Case-based Product Recommendation	180
6.5.2 Collaborative Product Recommendation	182
6.5.3 Wasabi Personal Shopper- Case-based Recommender Systems	183
6.6 Product Configuration with CBR	183
6.7 Negotiation Using CBR	185
6.7.1 CBR-based Negotiation	185
6.7.2 A Negotiation Framework with CBR	186
6.8 Concluding Remarks	188
7 Case Based Reasoning in Multiagent Systems	191
7.1 Introduction	191
7.2 A Knowledge-based Model of Multiagent CBR Systems	192

7.3 Distributed Case Base and Retrieval	196
7.4 CBR for Agent Team Coordination	198
7.5 Case-based BDI Agents	199
7.6 Cooperative CBR Agents in MAS	202
7.7 Applying CBR to Multiagent Negotiation	205
7.7.1 Introduction	205
7.7.2 Negotiation in a Real Estate Agency	206
7.7.3 Negotiation Strategies	206
7.7.4 Case-based Agent Architecture	207
7.8 Concluding Remarks	208
8 Multiagent E-Commerce	211
8.1 Introduction	212
8.2 Agent-based E-commerce	213
8.2.1 Intelligent Agents in E-Commerce	213
8.2.2 Intelligent Agents as Personal Assistants	213
8.2.3 Intelligent Information Agents	214
8.2.4 Multiagent-based E-Commerce	214
8.3 Multiagent Negotiation	215
8.3.1 Characteristics of Negotiation	215
8.3.2 Automated Negotiation in E-Commerce	217
8.3.3 Integrative Negotiation	217
8.3.4 Summary	218
8.4 Auction-based E-Commerce	218
8.4.1 Characteristics of Auction	219
8.4.2 Electronic Auction	221
8.4.3 Multiagent-based Auctions	222
8.5 Mediation-based E-Commerce	223
8.5.1 Mediation and Intermediary	223
8.5.2 Multiagent-based Mediation	225
8.5.3 Summary	227
8.6 Brokerage-based E-Commerce	228
8.6.1 Characteristics of Brokerage	228
8.6.2 Agents and Brokers in the Bargaining Process	230
8.6.3 Principles of Bargaining and Compromise	231
8.6.4 Electronic Brokerage	237
8.6.5 Multiagent Brokerage	237
8.7 An Architecture of Multiagent Brokerage	239
8.8 Concluding Remarks	242
Part - III: Integration	243
9 Integration of CBR and MAS in E-Commerce	245
9.1 Introduction	245
9.2 Parsimony of Intelligence in Multiagent Systems	246
9.2.1 Intelligence of An Expert System	246

9.2.2 Intelligence of Multiagent Systems	247
9.2.3 Parsimony Principle of Intelligence	248
9.2.4 Artificial Redundancy of Intelligence	250
9.2.5 Summary	251
9.3 CBR for Multiagent E-Commerce	251
9.3.1 New Insight into Case-based Reasoning	251
9.3.2 CBR for Multiagent Negotiation	253
9.3.3 CBR for Multiagent Mediation	255
9.3.4 CBR for Multiagent Auction	256
9.4 CMB: Integration of CBR and Multiagent Brokerage	257
9.5 Analysis and Design of CMB	262
9.5.1 Related Work	262
9.5.2 Interface Agent of CMB	263
9.5.3 Development of CMB with Design Patterns	264
9.5.4 Applying Game Technology to CMB	265
9.6 Implementing CMB	267
9.7 Concluding Remarks	269
10 Concluding Remarks	271
10.1 Case-based Reasoning	272
10.2 Knowledge Management and Experience Management	273
10.3 E-commerce and E-business	273
10.4 Web Intelligence	274
10.5 Artificial Intelligence	275
10.6 Multiagent Systems	276
10.7 Information Systems	276
10.8 Boolean Algebra	277
10.9 Future Work	277
10.10 End without End	278
11 Bibliography	279
