Introduction **1**

Part One: Principles and Methods

1. Fundamentals of Process Management and Business Process Reengineering **11**
S. Tonchia
1.1 Process Management at the Origin of Customer Satisfaction 11
1.2 The Basic Concepts of "Internal Supplier / Customer" and "Process Ownership" 13
1.3 Importance of Objectives and Consequences on Performance Measurement 16
1.4 From Process Management to Business Process Reengineering 20
1.5 Process Management and ISO 9000:2000 Quality Standards 25

2. Methodology for Process Management Design & Implementation **29**
S. Tonchia
2.1 Content and Deployment of the Methodology 29
2.2 The Main Processes in a Company 33
2.3 Process Management and Information & Communication Technologies (ICT) 38
2.4 Techniques and Software Packages for Process Data Management & Representation 39

3. Knowledge Management in Enterprise Networks **47**
S. Tonchia
3.1 Foundations of Knowledge Management 47
3.2 Knowledge, Competencies and Process Management 52
3.3 Process Management and Enterprise Networks: The Extended Management of Knowledge 57
3.4 Organizational and ICT Networks: The Extended Enterprise 60

Part Two: The BPR Project and the Processes

4 The Business Process Reengineering Project: A Successful Case Study 71
E. Snaidero and A. Tramontano
4.1 A Product-Oriented Company Opts to Become Customer-Oriented 71
4.2 Basic Principles of the Reorganisation Carried out in Snaidero R. S.p.A. 74
4.3 New Methods and Tools Supporting the Customer-Oriented Company 79
4.4 BPR Project Phases in Snaidero R. S.p.A. 89
4.5 Main Difficulties and Immediate BPR Benefits 92

5. The Business Development and Sales-Service Processes 97
S. Tonchia
5.1 Business Development 97
5.2 Marketing Strategy and Product Portfolio Definition 99
5.3 Product Input/Output Impact Evaluation 102
5.4 Design & New Product Development 106
5.5 Sales and Service 123

6. The Supply Chain Processes 125
S. Tonchia
6.1 Supply Chain 125
6.2 Logistics 128
6.3 Relationships with Suppliers 136
6.4 Manufacturing 142
6.5 Quality 143
6.6 Plants & Safety and Technology & Investments 146

7. The Directive and Support Processes 149
S. Tonchia
7.1 Strategic Planning 149
7.2 Human Resources Management 153
7.3 Budgeting & Control 154

Part Three: From Processes to the Extended Enterprise

8. The Knowledge Extended Enterprise: An Innovative Business Model Suggested by Snaidero 161
A. Tramontano
8.1 An Evolving Business: The Process-Based Company Becomes a Knowledge Extended Enterprise 161
8.2 The Knowledge Extended Enterprise: Main Features and Comparisons 166
8.3 The Collaboration Platform: Its Target Addressees and Main Benefits 172

9. The Web-Based Collaboration Platform: Implementation Phases, Tools and Architecture 185
A. Tramontano and S. Franz
9.1 Basic Principles for Implementing the Collaboration Platform 185
9.2 Why Not Just One Project Partner? 188
9.3 The Project Phases 192
9.4 Development and Implementation of the Company's Toolbox and Software Architecture 198

10. The Management Intelligence Methodology: From Process and Capabilities Redesign to the Development of Knowledge Management 209
L. Quagini
10.1 SDG Consulting 209
10.2 Management Intelligence and the Extended Enterprise 211
10.3 The "Adapt - Case" Approach 214
10.4 The Creation of Value in BPR Projects 216
10.5 Snaidero Case: SDG's Contribution to the Creation of KPI's and the Knowledge-Based Extended Enterprise Through Web-Intelligence 219

11. The Extended Supply Chain: Enabler of Business Drives 229
A. Braga Illa and A. Cencini
11.1 Evolution Scenario of the Supply Chain 229
11.2 TXT E-Solutions 230
11.3 The Supply Chain in the Extended Enterprise 232
11.4 The Extended Supply Chain of Snaidero 236

12. Infrastructures and Web-Based Business Applications for an Integrated Supply Chain 245
M. Bonzano and E. Liverani
12.1 Company Profile of Oracle Corporation 245
12.2 From Integrated Logistics to the Supply Chain 246
12.3 Unity of the Information 248
12.4 Orientation to the Processes 250
12.5 Technological Prospects for the Extended Enterprise 257

Bibliography and Web Sites 259
