## Brief Contents

---

### Part I Global and general perspectives on the Convention on Biological Diversity

---

**Global Conservation of Biodiversity from an Economic Point of View**  
*Rainer Marggraf* ..... 3

**Financial support for biodiversity protection in developing countries – does the CBD mechanism lead to an appropriate level of biodiversity protection?**  
*Susanne Menzel* ..... 23

**The Cartagena Protocol: trade related measures as a means to protect biological diversity from risks deriving from genetically modified organisms**  
*Alexander Behrens* ..... 43

**Policy-Windows for the Declaration of Protected Areas – A Comparative Case Study of East Germany and Guatemala**  
*Heiko Garrelts, Regina Birner, Heidi Wittmer* ..... 65

**Will companies engage in the conservation of biodiversity? A prototypical model of aggregated pro-biodiverse actions of industrial companies**  
*Ralph Buse* ..... 85

---

### Part II Local, regional and nationwide perspectives on the Convention on Biological Diversity: Examples from Germany

---

**Problems and Prospects of the Conservation of Biodiversity in Germany**  
*Matthias Schaefer* ..... 107

**The Designation of National Parks in German Nature Conservation Law**  
*Tobias Hellenbroich* ..... 133

<b>Conservation management of target species or conservation of processes – Winners and losers of two different conservation strategies</b>	
<i>Judith Rothenbücher, Kai Bentlage, Peter Just</i> .....	155
<b>Valuation of ecosystem services provided by biodiversity conservation: an integrated hydrological and economic model to value the enhanced nitrogen retention in renaturated streams</b>	
<i>Ingo Bräuer</i> .....	193
<b>Towards sustainable land use: Public demand for plant diversity in agricultural landscapes of central Germany</b>	
<i>Anke Fischer</i> .....	205
<b>Narrating diversity: Plants, personal knowledge and life stories in German home gardens</b>	
<i>Anne Holl</i> .....	221
<b>Aspects of bird valuation in Brandenburg-Prussia: Towards the significance of socio-economic conditions for biodiversity perception between the 16th and 20th century</b>	
<i>Johannes Klose</i> .....	249
<hr/>	
<b>Part III Local, regional and nationwide perspectives on the Convention on Biological Diversity: Examples from Guatemala</b>	
<hr/>	
<b>Prospects and Challenges for Biodiversity Conservation in Guatemala</b>	
<i>Regina Birner, Heidi Wittmer, Augustin Berghöfer, Michael Mühlenberg</i> .....	285
<b>Calculating Incentives for Watershed Protection. A Case Study In Guatemala</b>	
<i>María A. Máñez Costa, Manfred Zeller</i> .....	297
<b>The cultural context of biodiversity conservation</b>	
<i>Petra Maass</i> .....	315
<b>Direct payments for conservation – the importance of environmental measures in farming systems for bird populations in a fragmented landscape. A case study in Guatemala</b>	
<i>María A. Máñez Costa, Swen C. Renner</i> .....	343
<b>Land use changes and abiotic aspects as basic conditions for conservation of biodiversity in a tropical montane cloud forest (Guatemala)</b>	
<i>Michael Markussen, Swen C. Renner</i> .....	357

**Human impact on bird diversity and community structure in a tropical montane cloud forest in Alta Verapaz, Guatemala, with special reference to the Quetzal (*Pharomachrus mocinno*)**  
*Swen C. Renner, Michael Markussen* ..... 373

**What drives biodiversity loss in the land of trees? A review of the economic and historical parameters causing deforestation in Guatemala**  
*Ludger-Josef Loening, Hermann Sautter* ..... 391

---

**Part IV Epilogue: A general perspective on the evaluation of interdisciplinary research**

---

**Permanent Evaluation: An important tool for a quality assurance in interdisciplinary research**  
*Philip W. Balsiger, Rudolf Kötter* ..... 421
