1	Historical Review of Cross-Sectional Anatomy of the Brain	1
2	Cephalic Reference Lines Suitable for Neuroimaging	11
I	Cranial Reference Lines and Planes	11
A	Historical Background and Overview	11
B	The Need for a Consensus	12
C	Classification of the Cephalic Reference Planes	13
D	The Choice of a Nomenclature	13
II	Brain Horizontal Reference Lines and Planes	13
A	The Bicommissural Reference Plane	14
1	Biometric Data	15
2	Anatomic and Imaging Correlations	17
B	The Delmas and Pertuiset Reference Plane	22
1	Anatomic and Imaging Correlations	22
2	Topometric Findings	22
C	The Neuro-ocular Plane	24
1	Anatomic and Imaging Correlations	24
2	Topometric and Biometric Findings	27
D	The Callosal Plane	28
E	The Chiasmatico-Commissural Plane	29
1	Biometric Findings	29
2	Anatomic and Imaging Correlations	31
F	Anatomic and Physiologic Reference Planes	35
1	The “Plan Vestibulaire Horizontal”	38
2	The “Plan des Axes Orbitaires”	38
III	Brain Vertical Reference Lines and Planes	39
A	The Anterior Commissure-Mamillary Planes	39
1	The Commissuro-Mamillary Reference Line	39
2	The Commissuro-Mamillary Plane	40
B	The Commissural-Obex Reference Plane	41
1	Biometric Findings	41
2	Anatomic and Imaging Correlations	42
	References	48
3	Brain Cortical Mantle, Ventricles and White Matter Core	51
I	Historical Notes and Landmarks	51
II	Cytoarchitecture and Brain Mapping	51
A	Gross Morphology and Fissural Patterns of the Brain	56

1	Gross Morphology	56
2	Brain Sulcation: Classifications	57
3	Sulcal and Gyral Anatomy	57
B	The Lateral Surface of the Cerebral Hemisphere	57
1	Lateral Fissure of Sylvius	57
2	Central Sulcus (Rolando)	69
3	Inferior Frontal Sulcus	74
4	Superior Frontal Sulcus	74
5	Precentral Sulcus	74
6	The Intraparietal Sulcus	74
7	Superior Temporal Sulcus	78
8	Frontomarginal Sulcus	78
C	Gyri of the Lateral Surface of the Cerebral Hemisphere	78
1	The Frontal Lobe	78
a	Inferior Frontal Gyrus	78
b	Middle Frontal Gyrus	78
c	Superior Frontal Gyrus	80
d	Precentral Gyrus	80
2	The Parietal Lobe	80
a	Postcentral Gyrus	80
b	Inferior Parietal Gyri	80
c	Superior Parietal Gyrus	81
3	The Temporal Lobe	81
a	Superior Temporal Gyrus	81
b	Middle Temporal Gyrus	81
c	Inferior Temporal Gyrus	81
4	The Occipital Lobe	81
5	The Insula of Reil	83
D	The Mesial Surface of the Cerebral Hemisphere	83
1	Cingulate Sulcus	86
2	Parieto-occipital Sulcus	86
3	Calcarine Sulcus	86
4	Rostral Sulci	86
5	Gyri of the Mesial Surface of the Cerebral Hemisphere	86
a	The Gyrus Rectus	86
b	The Cingulate Gyrus	87
c	The Medial Frontal Gyrus	91
d	The Paracentral Lobule	91
e	The Precuneus	91
f	The Cuneus	92
g	The Lingual Gyrus	93
E	The Basal Surface of the Cerebral Hemisphere	93
1	The Frontal Orbital Lobe	93
a	Olfactory Sulcus and Gyrus Rectus	93
b	Orbital or Orbitofrontal Sulci and Gyri	93
2	The Temporal Basal Lobe	93
a	Collateral Sulcus and Parahippocampal Gyrus	93
b	Occipitotemporal Sulcus and Fusiform Gyrus	96
F	White Matter Core and Major Association Tracts	96
III	Vascular Supply of the Brain	101
A	The Arterial Supply of the Brain	101
1	The Internal Carotid Artery	101

- a The Ophthalmic Artery 102
- b The Posterior Communicating Artery 102
- c The Anterior Choroidal Artery. 103
- d The Anterior Cerebral Artery. 103
- e The Middle Cerebral Artery 105
- 2 The Arterial Circle of Willis 105
- B Vascular Supply of the Posterior Fossa 110
 - 1 The Posterior Inferior Cerebellar Artery 110
 - 2 The Anterior Inferior Cerebellar Artery. 111
 - 3 The Superior Cerebellar Artery 111
- C The Cerebral Venous System 111
- References 113

- 4 Central Region and Motor Cortex 117**
 - I Introduction. 117
 - II Embryology of the Sensorimotor Cortex 117
 - III Morphology and Imaging 117
 - A The Central Sulcus. 117
 - B The Precentral Sulcus 120
 - C The Postcentral Sulcus 121
 - D Topographical and Functional Anatomy and Imaging 121
 - 1 The Primary Sensorimotor Cortex or Central Cortex 121
 - a The Primary Motor Cortex or Precentral Gyrus 122
 - b The Postcentral Gyrus. 125
 - c Motor and Sensory Representation in the Primary Sensorimotor Cortex 125
 - 2 The Premotor Cortex 126
 - 3 The Supplementary Motor Area 128
 - V The Pyramidal Tract. 129
 - VI Vascular Supply of the Sensorimotor Cortex. 133
 - A Arterial Supply of the Sensorimotor Cortex. 133
 - 1 Arterial Supply of the Lateral Aspect of the Hemisphere 133
 - 2 Arterial Supply to the Mesial Aspect of the Hemisphere 134
 - B Venous Drainage of the Sensorimotor Cortex 134
 - 1 The Lateral Venous Drainage System 134
 - 2 The Mesial Venous Drainage System 135
 - VII Imaging Approaches for the Localization of the Central Sulcus 135
 - References 136

- 5 Perisylvian Cognitive Region. 139**
 - I The Lateral Fissure and the Perisylvian Opercula. 139
 - II The Insula of Reil 139
 - A The Preinsular Area. 139
 - B The Insular Lobe 139
 - C The Anatomic Relationships of the Insula. 142
 - D Vascular Relationships of the Insula. 144

E	Function of the Insula	145
III	The Anterior Speech Region	145
A	Sulcal Anatomy of the Anterior Speech Region	146
1	The Horizontal Ramus	146
2	The Vertical Ramus	146
3	The Inferior Precentral Sulcus	149
B	Gyral Anatomy of the Anterior Speech Region	149
1	The Pars Triangularis	149
2	The Pars Opercularis	149
IV	The Posterior Speech Area	150
A	Sulcal Anatomy of the Posterior Speech Area	151
1	The Third Segment of the Lateral Fissure	151
2	The Inferior Parietal Sulci	152
3	Posterior Extent of the Parallel Sulcus	152
B	Gyral Anatomy of the Posterior Speech Area	153
1	Anatomy of Heschl's Gyrus	153
2	Anatomy of the Temporal Planum	156
3	Imaging of the Posterior Speech Area	156
V	The Cerebral Asymmetries	156
	References	158
6	Limbic Lobe and Mesial Temporal Region	161
I	The Limbic Lobe or "Grand Lobe Limbique"	161
A	Morphology and Topographical Anatomy	161
B	Imaging of the Limbic Lobe	161
1	The "Forniceal Plane"	163
II	Anatomy of the Mesial Temporal Region	163
A	The Temporal Polar Cortex	163
B	The Entorhinal Area	166
C	The Perirhinal Area	166
D	The Amygdala	168
1	Morphology, Topographical Anatomy and Imaging of the Amygdala	168
a	The Basolateral Group of Nuclei	168
b	The Corticomедial Group of Nuclei	169
c	The Central Group of Nuclei	170
d	Boundaries of the Amygdaloid Bodies	170
2	Functional and Clinical Considerations	171
3	Clinical Considerations and Targeting	171
E	The Hippocampal Formation	172
1	Embryology	172
The Choroid Plexus, Tela, Taenia, and Lamina Affixa	173	
2	Morphology and Imaging	173
3	Anatomy of the Hippocampal Formation	174
a	The Hippocampus Proper	174
b	The Hippocampal Head	174
c	The Hippocampal Body	176
d	The Hippocampal Tail	176
4	Cytoarchitectonics and Intrinsic Circuitry	177
5	Vascular Supply of the Mesial Temporal Region	179

6 Functional and Clinical Considerations	179
7 Clinical Considerations	181
F The Uncus	181
References	181
7 The Basal Forebrain, Diencephalon and Basal Ganglia	185
I Regional Anatomy and Imaging of the Interbrain	185
II The Basal Forebrain and Related Structures	186
A The Septal Region	187
1 Morphology and Topographical Anatomy and Imaging	187
2 Functional and Clinical Considerations	188
B The Substantia Innominata	190
1 Morphology and Topographical Anatomy and Imaging	190
2 Functional and Clinical Considerations	191
III The Thalamus	191
A Topographical and Nuclear Organization	193
B Functional Aspects and Clinical Considerations	199
The Thalamic Radiations	199
C The Vascular Supply to the Thalamus	200
IV The Epithalamus	200
A The Pineal Gland	200
B The Habenula	200
C The Posterior Commissure	200
V The Hypothalamus	201
A Cytoarchitecture of the Hypothalamus	203
1 The Medial Hypothalamic Zone	203
2 The Lateral Hypothalamic Region	203
B Connections of the Hypothalamus	204
C Functional Aspects and Clinical Considerations	205
D Vascular Supply to the Hypothalamus	205
VI The Subthalamic Region, Subthalamus, or Ventral Thalamus	205
A The Subthalamic Nucleus (Corpus Luysi)	206
1 Morphology and Topographical Anatomy	206
2 Functional and Clinical Considerations	206
B The Zona Incerta	206
C The Prerubral Field	207
D Vascular Supply to the Subthalamic Region	207
VII The Basal Ganglia	207
A Morphology and Imaging	207
B Topographical Anatomy of the Lenticular Nucleus	209
C Topographical Anatomy of the Caudate Nucleus	209
D Functional Aspects and Clinical Considerations	212
E Functional Neurosurgery	213
F Arterial Supply to the Basal Ganglia	214
VIII The Internal Capsule and Corona Radiata	216
A Gross Morphology and Imaging	216
B Topographical and Functional Anatomy	216
C Arterial Supply to the Internal Capsule	217
