Contents

Preface **vii**

1 An Introduction to Preference Theory **1**
1.1 Introduction . . . 1
1.2 Binary Relations and Orderings . . . 2
1.3 Preference Relations and Utility Functions . . . 11

2 Algebraic Choice Theory **21**
2.1 Introduction . . . 21
2.2 The General Algebraic Theory of Choice . . . 22
2.3 Some Criticisms of the Model . . . 25
2.4 Stated Preferences versus Actual Choices . . . 28
2.5 The Specification of the Primitive Terms . . . 30
2.6 Weak Separability of Preferences . . . 33
2.7 Additive Separability . . . 39
2.8 Sequential Consumption Plans . . . 41
2.9 The BPL Experiment Reconsidered . . . 44
2.10 Probabilistic Theories of Choice . . . 45
2.11 Are Preferences Total? . . . 47
2.12 Are Preferences Transitive? . . . 50
2.12.1 'Just Noticeable Difference,' or 'Threshold Effects' . . . 50
2.12.2 Decision Rules Based On Qualitative Information . . . 51
2.12.3 Priorities and Measurement Errors . . . 52
2.12.4 Group Decisions: The Dr. Jekyll and Ms. Jekyll Problem . . . 53
2.13 Asymmetric Orders . . . 54

3 Revealed Preference Theory **59**
3.1 Introduction . . . 59
3.2 Choice Correspondences and Binary Relations . . . 59
3.3 Regular-Rational Choice Correspondences . . . 64
3.4 Representable Choice Correspondences . . . 67
3.5 Preferences and Observed Demand Behavior . . . 70
3.6 The Implications of Asymmetric Orders* . . . 77

4 Consumer Demand Theory **85**
4.1 Introduction . . . 85
4.2 The Consumption Set . . . 85
4.3 Demand Correspondences . . . 88
4.4 The Budget Balance Condition . . . 90
4.5 Some Convexity Conditions . . . 94
4.6 Wold's Theorem . . . 96
4.7 Indirect Preferences and Indirect Utility . . . 97
4.8 Homothetic Preferences . . . 104
4.9 Cost-of-Living Indices . . . 108
4.10 Consumer's Surplus . . . 111
4.11 Appendix . . . 125

5 Pure Exchange Economies **131**
5.1 Introduction . . . 131
5.2 The Basic Framework . . . 131
5.3 The Edgeworth Box Diagram . . . 133
5.4 Demand and Excess Demand Correspondences . . . 138
5.5 Pareto Efficiency . . . 142
5.6 Pareto Efficiency and 'Non-Wastefulness' . . . 150

6 Production Theory **155**
6.1 Introduction . . . 155
6.2 Basic Concepts of Production Theory . . . 155
6.3 Linear Production Sets . . . 161
6.4 Input-Output Analysis . . . 166
6.5 Profit Maximization . . . 171
6.6 Profit Maximizing with Constant Returns to Scale* . . . 176
6.7 Production in General Equilibrium Theory . . . 178
6.8 Activity Analysis* . . . 182

7 Fundamental Welfare Theorems **191**
7.1 Introduction . . . 191
7.2 Competitive Equilibrium with Production . . . 191
7.3 Some Diagrammatic Techniques . . . 196
7.4 Walras' Law with Production . . . 201
7.5 The 'First Fundamental Theorem' . . . 205
7.6 'Unbiasedness' of the Competitive Mechanism . . . 211
7.7 A Stronger Version of 'The Second Theorem' . . . 219

8 The Existence of Competitive Equilibrium **227**
8.1 Introduction . . . 227
8.2 Examples, Part 1 . . . 229
8.3 Assumption (c) and the Attainable Set . . . 235
8.4 The Gale and Mas-Colell Theorem . . . 239
8.5 An (Especially) Simple Existence Theorem . . . 241

8.6 Appendix 244

9 Examples of General Equilibrium Analyses 249
9.1 Introduction 249
9.2 Optimal Commodity Taxation: Initial Formulation 249
9.3 A Reconsideration of the Problem 252
9.4 The Simplest Model of Optimal Commodity Taxation 255
9.5 Some Results 256
9.6 Optimal Income Taxation 259
9.7 Monopoly in a General Equilibrium Model 269
9.8 Money in a General Equilibrium Model 272
9.9 Indivisible Commodities 276

10 Comparative Statics and Stability 281
10.1 Introduction 281
10.2 Aggregate Excess Demand 282
10.3 The 'Law of Demand' 286
10.4 Gross Substitutes 291
10.5 Qualitative Economics 294
10.6 Stability in a Single Market 298
10.7 Multi-Market Stability 302
10.8 A Note on Non-Tâtonnement Processes 307

11 The Core of an Economy 311
11.1 Introduction 311
11.2 Convexity and the Attainable Consumption Set 314
11.3 The Core of a Production Economy 317
11.4 The Core in Replicated Economies 320
11.5 Equal Treatment 329
11.6 Appendix 330

12 General Equilibrium with Uncertainty 333
12.1 Introduction 333
12.2 Arrow-Debreu Contingent Commodities 333
12.3 Radner Equilibrium 339
12.4 Complete Markets 345
12.5 Complete Markets and Efficiency 350
12.6 Concluding Notes 355

13 Further Topics 359
13.1 Introduction 359
13.2 Time in the Basic Model 359
13.3 An Infinite Time Horizon 366
13.4 Overlapping Generations 369
13.5 A Continuum of Traders 372
13.6 Suggestions for Further Reading 379

14 Social Choice and Voting Rules **383**
14.1 Introduction . . . 383
14.2 The Basic Setting . . . 384
14.3 Voting Rules . . . 387
14.4 Arrow's General Possibility Theorem . . . 392
14.5 Appendix. A More Sophisticated Borda Count . . . 402

15 Some Tools of Applied Welfare Analysis **407**
15.1 Introduction . . . 407
15.2 The Framework . . . 408
15.3 Measurement Functions . . . 409
15.4 Social Preference Functions . . . 411
15.5 The Compensation Principle . . . 416
15.6 Indirect Preferences: Individual and Social . . . 420
15.7 Measures of Real National Income . . . 422
15.8 Consumers' Surplus . . . 428

16 Public Goods **437**
16.1 Introduction . . . 437
16.2 A Simple Model . . . 437
16.3 Public Goods . . . 441
16.4 A Simple Public Goods Model . . . 442
16.5 Lindahl and Ratio Equilibria . . . 446
16.6 The 'Fundamental Theorems' for Lindahl Equilibria . . . 455
16.6.1 The 'First Fundamental Theorem' . . . 456
16.6.2 The 'Second Fundamental Theorem' . . . 458
16.6.3 The 'Metatheorem' . . . 462

17 Externalities **467**
17.1 Introduction . . . 467
17.2 Externalities: A First Look . . . 468
17.3 Extending the Model . . . 475
17.4 The 'Coase Theorem' . . . 480
17.5 Lindahl and Externalities . . . 484
17.6 Postscript . . . 487

18 Incentives and Implementation Theory **489**
18.1 Introduction . . . 489
18.2 Game Forms and Mechanisms . . . 490
18.3 The Gibbard-Satterthwaite Theorem . . . 495
18.4 Implementation Theory . . . 502
18.5 Single-Peaked Preferences and Dominant Strategies . . . 504
18.5.1 Single-Peaked Preferences . . . 504
18.5.2 The Bowen Model . . . 509
18.6 Quasi-Linearity and Dominant Strategies . . . 511
18.7 Implementation in Nash Equilibria . . . 520

18.8 Nash Implementation with Public Goods 522
18.9 The Revelation Principle Reconsidered 525
18.10Notes and Suggestions for Further Reading 527

19 Appendix. Solutions for Selected Exercises 531
19.1 Chapter 1 531
19.2 Chapter 2 533
19.3 Chapter 3 533
19.4 Chapter 4 536
19.5 Chapter 5 537
19.6 Chapter 6 540
19.7 Chapter 7 542
19.8 Chapter 8 543
19.9 Chapter 9 548
19.10Chapter 10 548
19.11Chapter 11 548
19.12Chapter 12 550
19.13Chapter 13 551
19.14Chapter 14 551
19.15Chapter 15 551
19.16Chapter 16 551
19.17Chapter 17 552
19.18Chapter 18 553
