Part I	Surgical Management of Strabismus		
1	Surgically Important Anatomy	3	
1.1	The Ocular Adnexa	3	
1.1.1	Surgical Access	3	
1.1.2	Eyelid Fissure Orientation	4	
1.1.3	Facial Asymmetry	4	
1.1.4	Pseudostrabismus	5	
1.1.5	Strabismus-Induced Eyelid Changes	6	
1.1.6	Pseudoptosis	7	
1.2	The Conjunctiva	7	
1.3	The Sclera	7	
1.4	Fascial System	9	
1.4.1	Tenon's Fascia	9	
1.4.2	Function of Tenon's Capsule and Orbital Connective Tissues	9	
1.5	The Rectus Muscle Pulley System	10	
1.6	Gross Anatomy of the Extraocular Muscles	12	
1.6.1	Rectus Muscles	12	
1.7	Innervation of the Extraocular Muscles	15	
1.8	Blood Supply to Extraocular Muscles	15	
1.9	Surgically Important Anatomy of Individual Extraocular Muscles	16	
1.9.1	Medial Rectus Muscle	16	
1.9.2	Lateral Rectus Muscle	16	
1.9.3	Inferior Rectus Muscle	17	
1.9.4	Superior Rectus Muscle	17	
1.9.5	Superior Oblique Muscle/Tendon	18	
1.9.6	Inferior Oblique Muscle	18	
	References	19	
2	Physiology of Eye Movements	21	
2.1	Axes of Ocular Rotation and Listing's Plane	21	
2.2	Duction Movements	22	
2.3	Version Movements	22	
2.4	Vergence Movements	22	
2.5	Basic Laws Governing Eye Movements	22	
2.6	Sherrington's Law of Reciprocal Innervation	23	
2.7	Herring's Law of Equal Innervation	23	
2.8	Donders' Law	23	
2.9	Cardinal and Diagnostic Positions of Gaze	23	
2.10	Actions of Individual Muscles	24	
2.10.1	Horizontal Rectus Muscles	24	
2.10.2	Vertical Rectus Muscles	24	
2.10.3	The Oblique Muscles	25	
	References	26	
3	Indications for Strabismus Surgery	27	
3.1	Restoration of Binocular Vision	27	
3.2	Diplopia	28	
3.3	Incomitant Strabismus	28	
3.4	Asthenopia	28	
3.5	Asymptomatic Patients	29	
3.6	Compensatory Head Posture	29	
3.7	Miscellaneous Surgical Indications	30	
3.8	Nystagmus	30	
3.9	Expansion of the Field of Vision in Patients with Esotropia	30	
3.10	Psychosocial and Vocational Indications	31	
	References	32	
4	Surgical Decision Making	35	
4.1	Preoperative Evaluation	35	
4.1.1	Strabismus History	35	
4.1.2	Ocular Motor and Sensory Examination	35	
4.2	Devising the Surgical Plan	36	
4.2.1	Which Eye to Operate?	36	
4.2.2	How Many Muscles to Operate?	36	
4.2.3	Surgical "Dose"	37	
4.3	Special Considerations	39	
4.3.1	Torsion	39	
4.3.2	Incomitant Strabismus	39	
4.4	Adjustable Suture Surgery	39	
	References	39	
5	Preoperative and Postoperative Care	41	
5.1	Scheduling Surgery	41	
5.2	Preparation for Surgery	41	
5.3	Arrival in the Operating Room	42	
5.4	Care of the Patient Following Surgery	43	
5.5	Timing of the First Postsurgical Visit	43	
5.6	Preoperative and Postoperative Drops	43	
	References	46	
6	Anesthesia Considerations	47	
6.1	Preoperative Preparation	47	
6.1.1	Laboratory Testing	47	
6.1.2	Fasting Recommendations	47	
6.1.3	Preoperative Medications	48
