<b>1</b>	<b>Radiation bio effects and dose reduction strategies</b> ..... 1		
	<i>Donald P. Frush</i>		
1.1	Introduction..... 1	3.8	Intracranial cystic lesions in children.....30
1.2	Mechanisms of radiation injury..... 1	3.9	Cystic lesions of the head and neck in children.....33
1.3	Doses of medical radiation..... 1	3.10	Spinal cord neoplasm in children.....36
1.4	Risks of medical radiation..... 2		
1.5	Strategies for radiation dose management..... 2	<b>4</b>	<b>Thoracic disorders</b> ..... 39
	References..... 3		<i>Donald P. Frush</i>
<b>2</b>	<b>Contrast media: posology, risks and side effects</b> ..... 5	4.1	Introduction..... 39
	<i>Magdalena M. Woźniak</i>	4.2	Imaging modalities..... 39
2.1	General information..... 5	4.3	Congenital abnormalities/neonatal anomalies..... 42
2.1.1	Classification..... 5	4.4	Infectious/inflammatory..... 48
2.2	Posology..... 7	4.5	Mass or mass-like conditions..... 52
2.2.1	Barium preparations..... 8	4.6	Trauma..... 56
2.2.2	MRI contrast agents..... 8	4.7	Toxic/metabolic and thoracic evaluation of systemic disorders..... 59
2.2.3	Ultrasound contrast agents..... 8	<b>5</b>	<b>Abdomen</b> ..... 63
2.3	Contra-indications..... 9		<i>Jochen Tröger</i>
2.3.1	Iodine contrast agents..... 9	5.1	Hepatobiliary system, spleen, pancreas..... 63
2.3.2	Barium preparations..... 9		<i>Hyun Soo Ko</i>
2.3.3	MRI contrast agents..... 9	5.1.1	Hepatobiliary system..... 63
2.3.4	Ultrasound contrast agents..... 9	5.1.2	Spleen..... 74
2.4	Adverse reactions to contrast agents and their management..... 9	5.1.3	Pancreas..... 78
2.4.1	Types of adverse reactions..... 10	5.2	Urogenital tract..... 80
2.4.2	Treatment of adverse reactions to contrast material..... 11		<i>Jens-Peter Schenk</i>
2.5	Remember!..... 11	5.2.1	Renal dysmorphology and anomalies..... 80
	References..... 12	5.2.2	Cystic renal diseases..... 83
<b>3</b>	<b>Head and Neck</b> ..... 13	5.2.3	Obstructive uropathy..... 86
	<i>Thierry A.G.M. Huisman</i>	5.2.4	Urinary tract infections..... 92
3.1	Developmental anomalies of the central nervous system..... 13	5.2.5	Renal parenchyma disease..... 94
3.2	Hypoxic-ischemic encephalopathy in neonates..... 15	5.2.6	Nephrocalcinosis..... 95
3.3	Intracranial haemorrhage in neonates..... 18	5.2.7	Renal vein thrombosis..... 97
3.4	Cerebral infections..... 20	5.2.8	Renal tumours..... 97
3.5	Traumatic head injury in children..... 22	5.2.9	Diseases of the suprarenal gland..... 99
3.6	Supra- and infratentorial tumours in children..... 25	5.2.10	Female gonads..... 102
3.7	Non accidental traumatic brain injury in children, child abuse..... 27	5.2.11	Male gonads..... 104
		5.2.12	Congenital genital anomalies..... 106
		5.2.13	Persistence of urachus..... 107
		5.3	Gastro-intestinal tract..... 108
			<i>Michael Kimpel</i>
		5.3.1	Oesophagus (Oesophageal atresia and tracheo-oesophageal fistula)..... 108
		5.3.2	Obstructions of the stomach and duodenum..... 108
		5.3.3	High intestinal obstruction..... 110

5.3.4	Low intestinal obstruction.....	111
5.3.5	Rotation anomalies of the midgut.....	114
5.3.6	Achalasia.....	116
5.3.7	Gastro-esophageal reflux.....	117
5.3.8	Foreign body ingestion.....	119
5.3.9	Intussusception.....	121
5.3.10	Hypertrophic pyloric stenosis.....	123
5.3.11	Necrotizing enterocolitis.....	123
5.3.12	Inflammatory bowel disease.....	124
5.3.13	Appendicitis.....	126
5.3.14	Gastro-intestinal tumours and tumour-like lesions.....	128

**6 Musculoskeletal system ..... 133**

*Harvey Teo, David Stringer*

6.1	Common bone dysplasias.....	133
6.1.1	Achondroplasia.....	133
6.1.2	Thanatophoric dysplasia.....	134
6.1.3	Asphyxiating thoracic dysplasia.....	135
6.1.4	Osteogenesis imperfecta.....	136
6.1.5	Osteopetrosis.....	137
6.2	Developmental dysplasia of the hip.....	138
6.3	Infection and inflammatory.....	140
6.3.1	Osteomyelitis.....	140
6.3.2	Septic arthritis.....	141
6.3.3	Juvenile idiopathic arthritis.....	142
6.4	Neoplasm.....	143
6.4.1	Evaluation of tumour and tumour-like bony lesions.....	143
6.4.2	Langerhan cell histiocytosis.....	145
6.5	Trauma.....	146
6.5.1	Paediatric fractures.....	146
6.5.2	Non-accidental injury.....	148
6.5.3	Slipped capital femoral epiphysis.....	149
6.6	Rickets.....	150
6.7	Osteochondroses.....	151
6.7.1	Legg-Calve-Perthes.....	151
6.8	Muscle disorders in children.....	153

**Subject Index ..... 155**

**CME-Instructions..... inside back cover**
