

Table of Contents

1	The physical and chemical fundamentals of fluorescence angiography 1		
1.1	Fluorescence 2	3.1.4	Retinal vessels 16
1.2	Fluorescein 2	3.1.5	Macula 16
1.3	Indocyanine Green 3	3.1.6	Sclera 17
		3.1.7	Iris 17
2	The Technical Fundamentals of Fluorescence Angiography 5	3.2	Normal ICG-Angiography 17
2.1	The basic design of a scanning laser ophthalmoscope 6	3.3	Pathological fluorescence phenomena .. 17
2.2	Light Sources 7	3.3.1	Hyperfluorescence 17
2.2.1	Lasers for Fluorescein Angiography 7	3.3.2	Hypofluorescence 18
2.2.2	Lasers for red-free fundus imaging 8	4	Fundus Autofluorescence 31
2.2.3	Lasers for Indocyanine green (ICG) angiography 9	4.1	Introduction 32
2.2.4	Lasers for reflective infrared imaging 9	4.2	Scanning laser ophthalmoscopy and modified fundus photography 32
2.3	The Fundamentals of Optical Imaging 9	4.3	Methods 32
2.3.1	The confocal principle 9	4.3.1	Fundamentals 32
2.3.2	Resolution in depth 10	4.3.2	The operational sequence of a fundus examination with the cSLO 32
2.3.3	Resolution in breadth 10	4.3.3	Lipofuscin in the retinal pigment epithelium 33
2.4	The Heidelberg Retina Angiograph 2 10	4.3.4	Normal fundus autofluorescence 33
2.4.1	HRA2-Parameters for basic imaging modes 11	4.4	Fundus autofluorescence – typical findings 33
2.4.2	Simultaneous mode 11	5	Macular Disorders 55
2.4.3	Composite mode 12	5.1	Age-Related Macular Degeneration (AMD) 56
2.4.4	Fixation assistance 12	5.1.1	Drusen 56
2.4.5	Wide angle objective 12	5.1.2	Irregular Pigmentation of the Retinal Pigment Epithelium (RPE) 62
2.4.6	ART module 12	5.1.3	Geographic atrophy of the RPE 62
2.4.7	Examination of the anterior segment 12	5.1.4	Choroidal Neovascularization (CNV) 64
2.4.8	Stereoscopic imaging 12	5.1.4.1	Classic Choroidal Neovascularization 64
2.4.9	Components of the analytical software .. 13	5.1.4.2	Occult Choroidal Neovascularization 69
		5.1.4.3	Mixed Forms 74
3	Normal Fluorescence Angiography and General Pathological Fluorescence Phenomena 15	5.1.4.4	Localization of Choroidal Neovascularization 74
3.1	Normal Fluorescence Angiography and general pathological fluorescence phenomena 16	5.1.5	Serous Detachment of the Retinal Pigment Epithelium 76
3.1.1	Choroid 16	5.1.6	Breaks in the Retinal Pigment Epithelium (RPE) 82
3.1.2	Cilioretinal vessels 16	5.1.7	Idiopathic Polypoid Choroidal Vasculopathy 84
3.1.3	Optic disc 16		

5.1.8	Retinal Angiomatous Proliferation (RAP)	86	6.6	Coats' Disease	148
5.1.9	Disciform Scarring	88	6.7	Retinal Capillary Hemangioma	150
5.1.10	Fluorescein Angiographic Phenomena Following Therapy	90	6.8 C	avernous Hemangioma of the Retina .	152
5.1.10.1	Laser Coagulation.	90	6.9	Vascular Tortuosity	154
5.1.10.2	Photodynamic Therapy (PDT)	90	7	Inflammatory Retinal/Choroidal Disease.	157
5.1.10.3	Anti VEGF Therapy	90	7.1	Toxoplasmic Retinochoroiditis.	158
5.2	Cystoid Macular Edema	102	7.2	Multifocal Choroiditis	160
5.3	Hereditary Macular Disorders.	104	7.3	Acute Posterior Multifocal Placoid Pigment Epitheliopathy (APMPPE)	162
5.3.1	Stargardt's Disease	104	7.4	Punctate inner Choroidopathy (PIC) . . .	166
5.3.2	Fundus Flavimaculatus.	104	7.5	Presumed Ocular Histoplasmosis Syndrome (POHS).	168
5.3.3	Best's Disease (Vitelliform Macular Dystrophy).	106	7.6	Birdshot Chorioretinopathy	170
5.3.4	Pattern Dystrophies of the Retinal Pigment Epithelium (RPE)	108	7.7	Perivasculitis.	173
5.3.5 C	ongenital X-Chromosome Retinoschisis.	110	7.7.1	Occlusive Retinal Vasculitis	173
5.4 A	ult Vitelliform Macular Degeneration (AVMD).	112	7.8	Inflammatory Macular Edema	178
5.5	The Macular Degeneration of Myopia. .	114	7.9	Serpiginous Choroiditis	180
5.6	Angioid Streaks	116	8	Diseases of the Optic Nerve Head. . . .	183
5.7	Central Serous Chorioretinopathy (CSC)	118	8.1	Congenital Anomalies of the Optic Disc	184
5.8	Chronic Idiopathic Central Serous Chorioretinopathy (CICSC)	120	8.1.1	Oblique Insertion of the Optic Nerve . .	184
5.9	Idiopathic Juxtafoveal Teleangiectasias	122	8.1.2	Myelinated Nerve Fibers	184
5.10	Epiretinal Gliosis	124	8.1.3	Drusen of the Optic Disc	186
5.11	Macular Holes	126	8.1.4	Coloboma of the Optic Disc	190
5.12	Chloroquine Maculopathy.	128	8.1.5	Optic Pit	190
6	Retinal Vascular Disease.	131	8.1.6	Capillary Hemangioma of the Juxtapapillary Retina.	194
6.1	Diabetic Retinopathy.	132	8.1.6.1	Endophytic Growth	194
6.1.1	Nonpr oliferative Diabetic Retinopathy	132	8.1.6.2	Sessile Growth	194
6.1.2	Proliferative Diabetic Retinopathy	134	8.1.6.3	Exophytic Growth.	198
6.2	Hypertensive Retinopathy.	136	8.1.7	Pigmented Optic Disc Anomalies.	200
6.3	Retinal Arterial Occlusions	138	8.2	Anterior Ischemic Optic Neuropathy. . .	202
6.3.1	Occlusion of the Central Retinal Artery	138	8.3	Papillitis	204
6.3.2	Branch Retinal Artery Occlusion	138	8.4	Papilledema	206
6.4	Retinal Vein Occlusions.	140	8.5 P	rapapillary Choroidal Neovascularization.	208
6.4.1	Central Retinal Vein Occlusion (CRVO). .	140	9	Intraocular Tumors.	211
6.4.2	Tributary Retinal Vein Occlusion	144	9.1	Choroidal Melanoma.	212
6.5	Retinal Macroaneurysms	146	9.2	Choroidal Metastases	214
			9.3	Choroidal Hemangioma.	218
				Subject Index.	221
