

# Table of Contents

---

## Part I Complex Structured Condensed Matter

---

### Spatial Statistics and Micromechanics of Materials

*Dominique Jeulin* . . . . . 3

### Characterising the Morphology of Disordered Materials

*Christoph H. Arns, Mark A. Knackstedt, Klaus R. Mecke* . . . . . 37

### Topological Characterization of Porous Media

*Hans-Jörg Vogel* . . . . . 75

### Nanotomography: Real-Space Volume Imaging with Scanning Probe Microscopy

*Robert Magerle* . . . . . 93

### Bicontinuous Surfaces in Self-assembling Amphiphilic Systems

*Ulrich Schwarz, Gerhard Gompper* . . . . . 107

### Morphology of Langmuir Monolayer Phases

*Mathias Lösche and Peter Krüger* . . . . . 152

### Spatial Order in Liquid Crystals: Computer Simulations of Systems of Ellipsoids

*Friederike Schmid, Nguyen H. Phuong* . . . . . 172

### Two-Dimensional Fluid Foams at Equilibrium

*François Graner* . . . . . 187

---

## Part II Spatial Statistics and Morphology

---

### Morphological Texture Analysis: An Introduction

*Pierre Soille* . . . . . 215

### Vector- and Tensor-Valued Descriptors for Spatial Patterns

*Claus Beisbart, Robert Dahlke, Klaus Mecke, Herbert Wagner* . . . . . 238

### Computational Topology for Point Data: Betti Numbers of $\alpha$ -Shapes

*Vanessa Robins* . . . . . 261

|   |     |
|---|-----|
| <b>The Euler Number of Discretized Sets</b><br><b>– On the Choice of Adjacency in Homogeneous Lattices</b><br><i>Joachim Ohser, Werner Nagel, Katja Schladitz</i> . . . . . | 275 |
| <b>Shape Statistics for Random Domains and Particles</b><br><i>Dietrich Stoyan, Ashot Davtyan, Daulet Turetayev</i> . . . . .   | 299 |
| <b>A Survey on Contact Distributions</b><br><i>Daniel Hug, Günter Last, Wolfgang Weil</i> . . . . .   | 317 |
| <b>Mark Correlations: Relating Physical Properties to Spatial Distributions</b><br><i>Claus Beisbart, Martin Kerscher, Klaus Mecke</i> . . . . .                            | 358 |
| <b>Spatial Jump Processes and Perfect Simulation</b><br><i>Kasper K. Berthelsen, Jesper Møller</i> . . . . .  | 391 |
| <b>Statistics for Non-sparse Spatially Homogeneous Gibbs</b><br><b>Point Processes</b><br><i>Gunter Döge, Dietrich Stoyan</i> . . . . .                                     | 418 |
| <b>Spatial Statistics of a Turbulent Random Multiplicative Branching Process</b><br><i>Martin Greiner</i> . . . . .   | 428 |
| <b>Subject Index</b> . . . . .  | 435 |
