| 1. | Introduction ..... | 1 |
|----|--------------------|---|

---

## Part I. Constraint Programming

---

|       |   |    |
|-------|---|----|
| 2.    | Algorithm = Logic + Control.....              | 7  |
| 3.    | Preliminaries of Syntax and Semantics.....    | 9  |
| 4.    | Logic Programming .....                       | 13 |
| 4.1   | LP Calculus .....                             | 14 |
| 4.1.1 | Syntax .....                                  | 14 |
| 4.1.2 | Operational Semantics .....                   | 15 |
| 4.2   | Declarative Semantics .....                   | 19 |
| 4.3   | Soundness and Completeness.....               | 20 |
| 5.    | Constraint Logic Programming .....            | 23 |
| 5.1   | CLP Calculus .....                            | 25 |
| 5.1.1 | Syntax .....                                  | 25 |
| 5.1.2 | Operational Semantics .....                   | 26 |
| 5.2   | Declarative Semantics .....                   | 29 |
| 5.3   | Soundness and Completeness.....               | 29 |
| 6.    | Concurrent Constraint Logic Programming ..... | 31 |
| 6.1   | CCLP Calculus .....                           | 32 |
| 6.1.1 | Syntax .....                                  | 32 |
| 6.1.2 | Operational Semantics .....                   | 33 |
| 6.2   | Declarative Semantics .....                   | 38 |
| 6.3   | Soundness and Completeness.....               | 39 |
| 7.    | Constraint Handling Rules .....               | 41 |
| 7.1   | CHR Calculus .....                            | 42 |
| 7.1.1 | Syntax .....                                  | 42 |
| 7.1.2 | Operational Semantics .....                   | 43 |
| 7.2   | Declarative Semantics .....                   | 46 |

## VIII Contents

|     |   |    |
|-----|---|----|
| 7.3 | Soundness and Completeness.....             | 46 |
| 7.4 | Confluence .....                            | 47 |
| 7.5 | CHR <sup>∨</sup> : Adding Disjunction ..... | 49 |

---

## Part II. Constraint Systems

---

|            |   |    |
|------------|---|----|
| <b>8.</b>  | <b>Constraint Systems and Constraint Solvers .....</b>    | 53 |
| 8.1        | Constraint Systems .....                                  | 53 |
| 8.2        | Properties of Constraint Systems .....                    | 54 |
| 8.3        | Capabilities of Constraint Solvers.....                   | 56 |
| 8.4        | Properties of Constraint Solvers .....                    | 58 |
| 8.5        | Principles of Constraint-Solving Algorithms .....         | 59 |
| 8.6        | Preliminaries.....  | 61 |
| <b>9.</b>  | <b>Boolean Algebra <math>B</math> .....</b>               | 63 |
| 9.1        | Local-Propagation Constraint Solver .....                 | 64 |
| 9.2        | Application: Circuit Analysis .....                       | 67 |
| <b>10.</b> | <b>Rational Trees <math>RT</math> .....</b>               | 69 |
| 10.1       | Variable Elimination Constraint Solver .....              | 70 |
| 10.2       | Application: Program Analysis .....                       | 73 |
| <b>11.</b> | <b>Linear Polynomial Equations <math>\Re</math> .....</b> | 77 |
| 11.1       | Variable Elimination Constraint Solver .....              | 78 |
| 11.2       | Application: Finance .....                                | 81 |
| <b>12.</b> | <b>Finite Domains <math>FD</math> .....</b>               | 83 |
| 12.1       | Arc Consistency .....                                     | 84 |
| 12.2       | Local-Propagation Constraint Solver .....                 | 86 |
| 12.3       | Applications: Puzzles and Scheduling .....                | 90 |
| <b>13.</b> | <b>Non-linear Equations <math>I</math> .....</b>          | 93 |
| 13.1       | Local-Propagation Constraint Solver .....                 | 94 |
| 13.2       | Applications .....  | 97 |

---

## Part III. Applications

---

|            |   |     |
|------------|---|-----|
| <b>14.</b> | <b>Market Overview .....</b>                                  | 101 |
| <b>15.</b> | <b>Optimal Sender Placement for Wireless Communication ..</b> | 105 |
| 15.1       | Approach.....   | 105 |
| 15.2       | Solver .....  | 106 |
| 15.3       | Evaluation .....  | 110 |

|  |     |
|--|-----|
| <b>16. The Munich Rent Advisor .....</b>       | 111 |
| 16.1 Approach.....                             | 111 |
| 16.2 Solver .....                              | 112 |
| 16.3 Evaluation.....                           | 114 |
| <b>17. University Course Timetabling .....</b> | 117 |
| 17.1 Approach.....                             | 118 |
| 17.2 Solver .....                              | 118 |
| 17.3 Generation of Timetables .....            | 121 |
| 17.4 Evaluation.....                           | 122 |

---

**Part IV. Appendix**

|   |     |
|---|-----|
| <b>A. Foundations from Logic .....</b>            | 125 |
| A.1 First-Order Logic: Syntax and Semantics ..... | 125 |
| A.2 Basic Calculi and Normal Forms .....          | 129 |
| A.2.1 Substitutions .....                         | 130 |
| A.2.2 Negation Normal Form and Prenex Form .....  | 131 |
| A.2.3 Skolemization .....                         | 132 |
| A.2.4 Clauses .....                               | 133 |
| A.2.5 Resolution.....                             | 134 |
| <b>List of Figures .....</b>                      | 135 |
| <b>References .....</b>                           | 137 |
| <b>Index .....</b>                                | 141 |
