Chapter 1 Primary Congenital Glaucoma	1	Alterations in the Shape of Chromosomes	57
History	1	Gene Abnormalities	57
Concept	1	References	59
Epidemiology	2		
Heredity	2	Chapter 8 Ocular Embryology with Special	
Prevalence	3	Reference to Chamber Angle Development ...	61
Etiopathogenesis	3	Embryology of the Chamber Angle	61
References	5	References	69
Chapter 2 Pediatrics Glaucoma. Classification	9		
Chapter 3 Clinical Features	11	Chapter 9 The Anatomy of the Chamber Angle	71
Symptoms	11	Anatomy of the Chamber Angle	71
Signs	11	Summary	80
References	17	Reference	80
Chapter 4 Examination of the Newborn		Chapter 10 Examination	
Under General Anesthesia	19	of the Chamber Angle	81
Effects of Anesthetic Agents on Intraocular Pressure	19	Gonioscopic Contact Lenses	81
References	28	Sterilization of Gonioscopic Contact Lenses	81
		Summary	84
		Reference	84
Chapter 5 Normal Intraocular Pressure		Chapter 11 Normal Chamber Angle	
in Children from Birth to Five Years of Age	29	in the Adult: Gonioscopic Images	85
Tonometers Used for Measuring Intraocular		Lenses for Gonioscopy	85
Pressure in Children	29	The New Gonioscopic Lens of Roussel and	
Normal Intraocular Pressure in Children from Birth		Fankhauser	92
to 5 Years of Age Under General Anesthesia	29	Summary	98
Normal Intraocular Pressure in Newborns Between		References	98
12 h and 15 Days of Age Under Local Anesthesia		Chapter 12 Normal Chamber Angle	
and Without General Anesthesia	33	in Newborns and Children	99
Ocular rigidity. Ytterborg's studies accounting		The Normal Chamber Angle	99
for children's intraocular pressure being		References	106
5 mmHg lower than in adults	35		
References	38	Chapter 13 Pathological Chamber Angle	
Chapter 6 Ocular Echometry		in Congenital Glaucoma and Its Implications	
in the Diagnosis of Congenital Glaucoma	41	in Indications for Surgery	107
Introduction	41	Pathological Chamber Angle in Congenital	
Echometry	42	Glaucomas	107
Conclusions	52	The Use of SL-OCT in Diagnosis	
References	53	and Follow-Up of Congenital Glaucomas	110
		References	117
Chapter 7 Genetics in Congenital Glaucoma ..	55		
What Is a Chromosome?	55		
Chromosome Abnormalities	56		

Chapter 14 Clinical History for Congenital Glaucoma	119	Chapter 21 Congenital Glaucoma Associated with Ocular Malformations	367
Chapter 15 Surgery for Congenital Glaucoma 125		Rieger Mesodermal Dysgenesis of the Cornea and Iris	367
Goniotomy	125	Peters Anomaly	380
Trabeculotomy for Chamber Angle Type I	131	Aniridia	388
Surgery for Refractory Congenital Glaucoma Type II	144	Aniridia and Wilms Tumor	397
Nonpenetrating Deep Sclerectomy for Late Congenital Glaucoma	155	Sclerocornea and Flat Cornea	397
Valve Devices in Congenital Glaucomas	171	Summary	398
Annex	180	References	399
References	185	Chapter 22 Congenital Glaucoma Associated with Ocular and Somatic Malformations	401
Chapter 16 Results of Surgery for Congenital Glaucoma	187	Phakomatosis	401
Percentage of Trabeculotomy and Combined Surgery in the Study Group	187	Nevus of Ota	416
References	191	References	419
Chapter 17 Optic Nerve	193	Chapter 23 Congenital Glaucoma Associated with Congenital Errors of the Metabolism	421
The Glaucomatous Optic Nerve Staging System with Confocal Tomography	193	Hyperaminoaciduria: Löwe's Oculocerebrorenal Syndrome	421
Optic Nerve in Congenital Glaucoma	205	Homocystinuria	424
Megalopapilla: Large Optic Nerve Heads, or Megalodiscs	214	Hurler Syndrome	424
Congenital Anomalies of the Optic Nerve	227	Endogenous Ochronosis (Alkaptonuria). Glaucoma Secondary to Luxation of the Lens	424
Clinical Cases	243	References	430
References	286	Chapter 24 Congenital Mesodermal Dystrophies	431
Chapter 18 Visual Field in Congenital Glaucoma	289	Marfan Syndrome	431
Material	289	Marchesani Syndrome	433
Method	290	Summary	436
Results	290	References	436
High-Pass-Resolution Perimetry in Normal Children in Congenital Glaucoma	294	Chapter 25 Nonhereditary Congenital Glaucomas	437
References	298	Embryopathies: Rubella	437
Chapter 19 Differential Diagnosis of Primary Congenital Glaucoma	299	Leukocoria	437
Nasolacrimal Duct Obstruction	299	Other Syndromes Associated with Glaucoma	452
Megalocornea	299	Summary	452
Rubeola	299	References	453
Obstetric Trauma	299	Chapter 26 Anatomopathologic Evaluation in Pure Congenital Glaucoma	455
Myopia	299	Pathological Anatomy of Pediatric Glaucomas	455
Pseudocongenital Cortisone Glaucoma	303	Microscopy of Trabeculectomy Specimens	458
References	309	References	466
Chapter 20 Goniodysgenesis or Late Congenital Glaucoma. Pigmentary Glaucoma 311		Chapter 27 False-Positive Diagnoses	467
Late Congenital Glaucoma: Goniodysgenesis	311	Clinical History No. 1	467
Pigmentary Glaucoma	331	Clinical History No. 2	470
References	364	Clinical History No. 3	472
Further Reading	365	Clinical History No. 4	475
		Chapter 28 Epilog	477
		Subject Index	479
