

# Contents

<b>1</b>	<b>Introduction</b> .....	1
<b>2</b>	<b>Lebesgue Spaces of Matrix Functions</b> .....	5
2.1	Preliminaries .....	5
2.2	Differentiability of Norm in $L^p(G, M_n)$ .....	14
<b>3</b>	<b>Matrix Convolution Operators</b> .....	21
3.1	Characterisation of Matrix Convolution Operators .....	22
3.2	Weak Compactness of Convolution Operators .....	31
3.3	Spectral Theory .....	33
3.4	Jordan Structures in Harmonic Functions .....	72
<b>4</b>	<b>Convolution Semigroups</b> .....	87
4.1	Harmonic Functions of Semigroups .....	87
4.2	Hypercontractivity .....	94
	<b>References</b> .....	101
	<b>List of Symbols</b> .....	105
	<b>Index</b> .....	107
