

# Contents

<b>Introduction</b> .....	ix
<b>1. Numbers</b> .....	1
1.1 Arithmetic Progressions .....	1
1.2 Proof by Contradiction .....	5
1.3 Proof by Contraposition .....	8
1.4 Proof by Induction .....	10
1.5 Inductive Definition .....	19
1.6 The Well-ordering Principle .....	27
<b>2. Logic</b> .....	35
2.1 Propositions .....	35
2.2 Truth Tables .....	39
2.3 Syllogisms .....	43
2.4 Quantifiers .....	48
<b>3. Sets</b> .....	53
3.1 Introduction .....	54
3.2 Operations .....	58
3.3 Laws .....	62
3.4 The Power Set .....	65
<b>4. Relations</b> .....	71
4.1 Equivalence Relations .....	72
4.2 Congruences .....	75
4.3 Number Systems .....	79
4.4 Orderings .....	85

---

<b>5. Maps</b> .....	89
5.1 Terminology and Notation .....	89
5.2 Examples .....	94
5.3 Injections, Surjections and Bijections .....	99
5.4 Peano's Axioms .....	105
<b>6. Cardinal Numbers</b> .....	113
6.1 Cardinal Arithmetic .....	114
6.2 The Cantor–Schroeder–Bernstein theorem .....	118
6.3 Countable Sets .....	121
6.4 Uncountable Sets .....	126
<b>Solutions to Exercises</b> .....	131
<b>Guide to the Literature</b> .....	163
<b>Bibliography</b> .....	165
<b>Dramatis Personae</b> .....	167
<b>Index</b> .....	171
