

# Table of Contents

<b>Dedications</b> .....	<b>v</b>
<b>Preface</b> .....	<b>vii</b>
Motivation for this Book .....	vii
Should You Read This Book? .....	viii
Structure of the Book .....	viii
Element and Attribute Tables .....	ix
Quick Tips .....	xi
On-Line Information .....	xi
About the Authors .....	xii
<b>Table of Contents</b> .....	<b>xiii</b>
<b>Common Acronyms and Terms</b> .....	<b>xxv</b>
<b>Acknowledgements</b> .....	<b>xxvii</b>
<b>Part One Introduction</b> .....	<b>1</b>
<b>1 An Overview of SMIL</b> .....	<b>3</b>
1.1 New Features in SMIL 3.0 .....	3
1.2 Using SMIL: Six Examples .....	4
1.2.1 Hi Mom! .....	4
1.2.2 Flags .....	5
1.2.3 Welcome to New York .....	6
1.2.4 Happy Birthday! .....	7
1.2.5 The Evening News .....	7
1.2.6 No-Budget Bicycle Tour .....	8
1.3 SMIL's Design Goals .....	10
1.4 The Various Versions of SMIL .....	11
1.4.1 SMIL 1.0 .....	11
1.4.2 SMIL 2.0 .....	11
1.4.3 SMIL 2.1 .....	11
1.4.4 SMIL 3.0 .....	12
1.5 SMIL Modules and Profiles .....	12
1.5.1 SMIL Profile and User-Agent Conformance .....	15
1.5.2 Six SMIL User Agents .....	18
1.6 Creating SMIL Presentations .....	20
1.6.1 Notepad (and Other Text Editors) .....	20

1.6.2	SMIL Syntax Validator .....	21
1.6.3	LimSee .....	21
1.6.4	GRiNS .....	21
1.7	SMIL and Other Specifications .....	22
1.7.1	CMIF .....	22
1.7.2	Flash .....	22
1.7.3	MPEG-4 .....	22
1.8	Summary and Conclusion .....	23
1.9	Further Resources .....	23
<b>2</b>	<b>Understanding SMIL Code .....</b>	<b>25</b>
2.1	Understanding XML Structure .....	25
2.1.1	XML Elements .....	26
2.1.2	XML Attributes .....	27
2.1.3	XML References .....	28
2.2	Flashlight: A SMIL Example Presentation .....	30
2.2.1	The Head and Body Sections .....	34
2.2.2	Media Content .....	35
2.2.3	Layout .....	36
2.2.4	Timing .....	38
2.2.5	Linking .....	40
2.2.6	Adaptivity .....	41
2.2.7	Putting it All Together .....	42
2.3	Encoding Flashlight in Different Profiles .....	44
2.3.1	SMIL 3.0 Extensions .....	44
2.3.2	SMIL 2.0/2.1 Language Profiles .....	44
2.3.3	SMIL Mobile Versions .....	45
2.3.4	XHTML+SMIL Profile .....	49
2.4	Summary and Conclusions .....	55
2.5	Further Resources .....	55
<b>3</b>	<b>Local and Streaming Media .....</b>	<b>57</b>
3.1	Classification of Media .....	57
3.2	Media Formats and Encodings .....	58
3.2.1	Media Formats for Compressed Discrete Media .....	59
3.2.2	Media Formats for Compressed Continuous Media .....	61
3.2.3	Tools for Creating Media .....	63
3.3	IRIs: Locating and Naming Media Objects .....	64
3.3.1	Local IRIs .....	65
3.3.2	Remote IRIs .....	65
3.3.3	Relative IRIs .....	66
3.3.4	Passing Parameters in IRIs .....	67
3.4	Accessing Media Within a SMIL Presentation .....	67
3.4.1	Local access to media .....	67
3.4.2	Remote Access to Media .....	68
3.5	Summary and Conclusion .....	73
3.6	Further Resources .....	73

<b>Part Two Basic SMIL Constructs .....</b>	<b>75</b>
<b>4 SMIL Structure .....</b>	<b>77</b>
4.1 SMIL Language Structure Issues .....	77
4.2 SMIL Structure Elements and Attributes .....	78
4.2.1 SMIL Document Type Declarations .....	78
4.2.2 SMIL Top-Level Structure Containers .....	79
4.2.3 Core Structure Attributes .....	83
4.2.4 Core Attributes for Accessibility .....	84
4.2.5 I18N Attributes .....	84
4.2.6 Namespace Attributes .....	85
4.3 Summary and Conclusion .....	86
4.4 Further Resources .....	87
<b>5 Referencing External Media Objects .....</b>	<b>89</b>
5.1 Partitioning Content and Control .....	89
5.2 SMIL Media Object Elements and Attributes .....	92
5.2.1 Media Elements .....	92
5.2.2 Media Object Attributes .....	94
5.3 Passing Parameters to Media Objects .....	99
5.3.1 Understanding the Use of Media Parameters .....	99
5.3.2 Elements for Media Initialization .....	99
5.3.3 Attributes for Media Parameters .....	100
5.3.4 Examples Using Media Parameters .....	101
5.4 Temporally Subsetting Media Objects .....	102
5.4.1 Attributes for Subsetting Media Objects .....	102
5.4.2 Using Media Clipping Attributes .....	103
5.5 Timing Consequences of Media Object Use .....	104
5.6 Summary and Conclusion .....	104
5.7 Further Resources .....	104
<b>6 Meta-Information, Media Description and XML Accessibility 105</b>	
6.1 Meta-Information .....	105
6.1.1 Elements for Meta-Information .....	106
6.1.2 Attributes for Meta-Information .....	107
6.1.3 Examples Using Meta-Information .....	108
6.2 Media Description .....	110
6.2.1 Media Description Attributes .....	111
6.2.2 Example Using Media Object Descriptions .....	112
6.3 XML Accessibility .....	113
6.3.1 Media Accessibility Attributes .....	113
6.3.2 Using Media Accessibility Attributes .....	114
6.4 Summary and Conclusion .....	114
6.5 Further Resources .....	115
<b>7 Basic SMIL Timing .....</b>	<b>117</b>
7.1 SMIL Timing Model Basics .....	118
7.1.1 A Simple Slideshow Presentation .....	118

7.1.2	Media Object and Presentation Timing Definitions .....	119
7.1.3	Durations, Time and Timebases .....	123
7.1.4	Special Timing Values .....	127
7.1.5	Interactive Timing and Events .....	128
7.2	Basic SMIL Timing Elements .....	129
7.2.1	Basic Time Containers .....	129
7.2.2	Nested Composition of Timing Elements .....	131
7.3	Basic SMIL Timing Attributes .....	131
7.3.1	General Timing Control Attributes .....	133
7.3.2	Object Persistence Attributes .....	139
7.3.3	Extended Timing Control Attributes .....	141
7.3.4	Repeating Objects and Sub-Structures .....	143
7.3.5	Advanced Timing and Synchronization Attributes .....	145
7.3.6	The General Timing Attributes .....	146
7.4	Summary and Conclusion .....	146
7.5	Further Resources .....	147
<b>8</b>	<b>SMIL Basic Layout .....</b>	<b>149</b>
8.1	An Overview of Layout Concepts .....	149
8.2	SMIL Layout Models .....	152
8.2.1	SMIL 1.0's Approach to Layout .....	152
8.2.2	SMIL's Revised Approach to Layout .....	153
8.2.3	SMIL 2.1 and SMIL 3.0 Layout Extensions .....	154
8.2.4	Summary of SMIL Layout Concepts .....	155
8.3	SMIL Basic Layout Elements and Attributes .....	155
8.3.1	SMIL Basic Layout Elements .....	157
8.3.2	Basic Layout Attributes Architecture .....	159
8.3.3	<l ayoout> Attributes .....	160
8.3.4	<root -l ayoout> Attributes .....	160
8.3.5	<regi on> Referencing Attributes .....	161
8.3.6	<regi on> Positioning Attributes .....	162
8.3.7	Background Attributes .....	163
8.3.8	Stacking and Scaling Attributes .....	165
8.3.9	Referencing Regions from Media Objects .....	168
8.3.10	SMIL Empty Layout Semantics .....	168
8.4	SMIL Audio Layout Elements and Attributes .....	169
8.4.1	Elements for Audio Layout .....	169
8.4.2	Attributes for Audio Layout .....	169
8.5	Examples Using SMIL Basic Layout .....	170
8.5.1	Defining the <l ayoout> Section .....	170
8.5.2	Supporting Multiple Layouts in One Presentation .....	172
8.5.3	Referencing Media in the Presentation .....	172
8.5.4	Adjusting Rendering Properties .....	172
8.5.5	Rendering Multiple Copies of a Single Media Object .....	174
8.6	Summary and Conclusion .....	174
8.7	Further Resources .....	175

<b>9</b>	<b>Timed Text in SMIL .....</b>	<b>177</b>
9.1	Text Content in a SMIL Presentation .....	177
9.1.1	Applications for smilText .....	178
9.1.2	Existing Support for Text in SMIL .....	179
9.2	smilText Elements and Attributes .....	182
9.2.1	smilText Elements .....	183
9.2.2	smilText Attributes .....	184
9.3	Rendering Control Elements and Attributes .....	184
9.3.1	Text Rendering Control Elements .....	185
9.3.2	Text Rendering Control Attributes .....	186
9.4	Segmentation and Styling Elements and Attributes .....	187
9.4.1	Text Segmentation Elements .....	187
9.4.2	Text Styling Attributes .....	188
9.5	Text Motion Elements and Attributes .....	191
9.5.1	smilText Motion Elements .....	191
9.5.2	smilText Motion Attributes .....	191
9.6	Examples of smilText Use .....	193
9.6.1	Basic smilText .....	193
9.6.2	Adding Explicit Timing Within Text .....	195
9.6.3	Adding Event-Based Text Timing .....	196
9.6.4	Adding Text Motion .....	197
9.6.5	Reusing Styles .....	198
9.7	Using smilText as an External Format .....	198
9.8	Summary and Conclusion .....	199
9.9	Further Resources .....	199
<b>10</b>	<b>Basic Linking .....</b>	<b>201</b>
10.1	An Overview of Linking Concepts .....	201
10.1.1	Links in HTML .....	202
10.1.2	SMIL: Adding Time to Links .....	205
10.2	SMIL Basic Linking Elements .....	206
10.2.1	SMIL Basic Linking Attributes Architecture .....	210
10.2.2	Specifying the Activation Period of Source Anchors .....	210
10.2.3	The Temporal Moment of the Destination Anchor .....	211
10.2.4	Attributes for Link Anchor Geometries .....	212
10.2.5	Attributes to Control the Playstate after Activation .....	214
10.2.6	Other Linking Control Attributes .....	215
10.3	Other Uses of Links in SMIL .....	217
10.3.1	SMIL Linking and Activation Control .....	217
10.3.2	SMIL Linking and Message Passing .....	219
10.4	Summary and Conclusion .....	219
10.5	Further Resources .....	220
<b>11</b>	<b>Content Selection and Control .....</b>	<b>221</b>
11.1	Content Selection: Rationale and Scope .....	221
11.1.1	Understanding the Runtime Environment .....	221
11.1.2	Techniques for Creating Adaptive Presentations .....	224

11.2	Content Control Elements and Attributes .....	226
11.2.1	SMIL Basic Content Control Elements .....	226
11.2.2	SMIL Basic Content Control Attributes Architecture .....	228
11.2.3	In-Line Use of System Test Attributes .....	229
11.2.4	User-Related System Test Attributes .....	230
11.2.5	Environment-Related System Test Attributes .....	233
11.2.6	Resource-Related System Test Attributes .....	235
11.2.7	Static vs. Dynamic Test Attribute Evaluation .....	238
11.3	Examples Using SMIL Content Control .....	238
11.3.1	Media and Presentation Design .....	238
11.3.2	The Structure of the Presentation .....	239
11.3.3	Using SMIL to Define the Adaptive Presentation .....	241
11.4	Summary and Conclusion .....	244
11.5	Further Resources .....	244
<b>Part Three Advanced SMIL Features .....</b>		<b>245</b>
<b>12</b>	<b>Transition Effects .....</b>	<b>247</b>
12.1	Concepts and Models of Transition Effects .....	247
12.1.1	Basic Transition Effects Concepts .....	247
12.1.2	Transition Models .....	249
12.1.3	Basic and Inline Transitions .....	253
12.2	Basic Transitions Elements and Attributes .....	253
12.2.1	Basic Transition Elements .....	253
12.2.2	General Attributes for Basic Transitions .....	253
12.2.3	Type-Specific Attributes for Basic Transitions .....	256
12.2.4	Attributes for Integrating Basic Transitions .....	257
12.3	Inline Transitions Elements and Attributes .....	259
12.3.1	Inline Transition Elements .....	259
12.3.2	General Attributes for Inline Transitions .....	260
12.3.3	Timing Attributes for Inline Transitions .....	261
12.3.4	Animation Attributes for Inline Transitions .....	262
12.3.5	Type-Specific Attributes for Inline Transitions .....	263
12.3.6	Attributes for Integrating Inline Transitions .....	264
12.4	Modifying Basic and Inline Transitions .....	264
12.4.1	Common Attributes for Modifying Transitions .....	264
12.5	Examples Using SMIL Transition Effects .....	265
12.5.1	Examples of Basic Transitions .....	265
12.5.2	Examples of Inline Transitions .....	268
12.6	Issues for Supporting Transition Effects .....	270
12.6.1	SMIL Timing and Transitions .....	270
12.6.2	The <par> Element and Transitions .....	272
12.6.3	The <seq> Element and Transitions .....	272
12.6.4	The <excl > Element and Transitions .....	273
12.7	Transition Classes, Types and Sub-Types .....	273
12.7.1	Required Types/Sub-Types .....	274
12.7.2	SMIL-Specific Transition Types and Sub-Types .....	274

12.7.3	Edge Wipe Transition Types and Sub-Types .....	275
12.7.4	Iris Wipe Transition Types and Sub-Types .....	276
12.7.5	Clock Wipe Transition Types and Sub-Types .....	276
12.7.6	Matrix Wipe Transition Types and Sub-Types .....	277
12.8	Summary and Conclusion .....	278
12.9	Further Resources .....	278
<b>13</b>	<b>SMIL Animation .....</b>	<b>279</b>
13.1	Overview of SMIL Animation .....	280
13.1.1	The SMIL Animation Model .....	280
13.1.2	SMIL Animation and the <ani mat i on> Element .....	285
13.2	Basic Animation Elements and Attributes .....	285
13.2.1	Basic Animation Elements .....	285
13.2.2	Basic Animation Attributes .....	287
13.2.3	Attributes for Specifying the Animation Target .....	287
13.2.4	Attributes for Providing Animation Values .....	289
13.2.5	Attributes for Defining the Animation Function .....	291
13.3	Support for SMIL Spline Animation .....	293
13.3.1	Spline Animation Elements .....	293
13.3.2	Spline Animation Attributes .....	293
13.3.3	Attributes for Spline Specification .....	293
13.4	Examples of SMIL Attribute Animation .....	294
13.5	Animation Support in SMIL Profiles and SVG .....	299
13.5.1	Animation and the SMIL Language Profile .....	300
13.5.2	Animation and the XHTML+SMIL Profile .....	300
13.5.3	Animation and SVG .....	301
13.6	Summary and Conclusion .....	302
13.7	Further Resources .....	302
<b>14</b>	<b>Subsetting and Extending Media .....</b>	<b>303</b>
14.1	Managing Media Opacity and Transparency .....	303
14.1.1	Media Opacity, Chroma Keys and Transparency .....	304
14.1.2	Attributes for Media Opacity Control .....	306
14.1.3	An Example of Media Opacity Processing .....	307
14.2	Cropping Source Media Spatially .....	307
14.2.1	Source Media Cropping and Pan/Zoom Support .....	308
14.2.2	Attributes for Media Pan/Zoom .....	310
14.3	Defining Active Areas for Links .....	311
14.3.1	Understanding Spatial Cropping for Linking .....	312
14.3.2	Elements for Link Area Cropping .....	314
14.3.3	Attributes for Link Area Cropping .....	314
14.4	Clipping Media in Time .....	315
14.4.1	Understanding Temporal Clipping of Media .....	315
14.4.2	Attributes for Temporal Clipping .....	316
14.4.3	Examples of Temporal Clipping .....	318
14.5	Clipping Media Using Media Markers .....	318
14.5.1	Understanding Media Clip Markers .....	319
14.5.2	Attribute Extensions for Media Markers .....	320
14.5.3	Examples Using Media Markers .....	321

14.6	Subsetting Media Via Fragment Identifiers .....	321
14.6.1	Understanding Fragment Identifiers .....	321
14.6.2	Language Support for Fragment Identifiers .....	322
14.6.3	Examples Using Fragment Identifiers .....	322
14.7	Media Rendering Customization .....	323
14.7.1	Attributes for Player Media Initialization .....	324
14.7.2	Examples of Media Initialization .....	325
14.8	Summary and Conclusion .....	326
14.9	Further Resources .....	327
<b>15</b>	<b>Advanced SMIL Timing Behavior and Control .....</b>	<b>329</b>
15.1	Event Based Timing .....	330
15.1.1	Understanding Events, Links and Interaction .....	330
15.1.2	Event Support in SMIL Profiles .....	336
15.1.3	Examples of Event Syntax and Semantics .....	338
15.2	Selective Time Composition .....	341
15.2.1	Understanding Selective Composition .....	341
15.2.2	Elements for Selective Composition .....	344
15.2.3	Attributes for Selective Composition .....	347
15.2.4	Examples of Selective Temporal Composition .....	349
15.3	SMIL Timing Model, Revisited .....	354
15.3.1	Element Activation, Duration and Termination .....	354
15.3.2	Determining Schedules .....	357
15.3.3	Pathological Examples .....	360
15.4	DOM Events and SMIL .....	362
15.4.1	Raising SMIL DOM Events .....	363
15.4.2	SMIL DOM Methods .....	364
15.5	Summary and Conclusion .....	365
15.6	Further Resources .....	366
<b>16</b>	<b>Advanced SMIL Timing Attributes .....</b>	<b>367</b>
16.1	Fill Behavior Control .....	368
16.1.1	Understanding the Fill Behavior .....	368
16.1.2	Fill Behavior Attributes .....	373
16.1.3	Examples of Fill Behavior .....	374
16.2	Restart Behavior .....	381
16.2.1	Understanding Restart Behavior .....	381
16.2.2	Restart Behavior Attributes .....	383
16.2.3	Examples of Restart Behavior .....	384
16.3	Synchronization Behavior Control .....	387
16.3.1	Understanding Synchronization Behavior Control .....	387
16.3.2	Synchronization Behavior Attributes .....	390
16.3.3	Examples of Synchronization Behavior Control .....	393
16.4	Time Manipulation .....	394
16.4.1	Understanding Time Manipulations .....	395
16.4.2	Time Manipulation Attributes .....	396
16.4.3	Examples of Time Manipulation .....	398
16.5	Summary and Conclusion .....	399

<b>17</b>	<b>Advanced Layout Topics .....</b>	<b>401</b>
17.1	Logical Media Object Alignment in Regions .....	402
17.1.1	Understanding Registration and Alignment Points .....	402
17.1.2	Elements for Layout Alignment .....	404
17.1.3	Attributes for Layout Alignment .....	405
17.1.4	Other Aspects of Registration Point Alignment .....	406
17.1.5	Examples of Registration Point Alignment .....	407
17.1.6	A Short-Cut Attribute for Registration Alignment .....	409
17.1.7	Audio Positioning Attributes .....	409
17.2	Sub-Region Positioning .....	410
17.2.1	Understanding Sub-Region Positioning .....	410
17.2.2	Sub-Region Positioning Elements .....	411
17.2.3	Sub-Region Positioning Attributes .....	411
17.2.4	Examples of Sub-Region Positioning .....	412
17.3	Hierarchical Layout .....	414
17.3.1	Understanding Hierarchical Layout .....	414
17.3.2	Hierarchical Layout Elements .....	415
17.3.3	Hierarchical Layout Attributes .....	415
17.3.4	Examples of Hierarchical Layout .....	416
17.4	Media Object Overrides of Layout Positioning .....	417
17.5	Defining Multiple Top-Level Windows .....	417
17.5.1	Understanding Multiple Top-Level Windows .....	417
17.5.2	Multi-Window Elements .....	419
17.5.3	Multi-Window Attributes .....	420
17.5.4	Aspects of Multi-Window Layout .....	421
17.5.5	Examples of Multi-Window Layout .....	422
17.6	SMIL Layout and CSS .....	423
17.6.1	CSS Attributes for SMIL Layout .....	423
17.6.2	CSS and SMIL Layout Comparison .....	424
17.7	Summary and Conclusion .....	426
17.8	Further Resources .....	426
<b>18</b>	<b>Extended Content Control .....</b>	<b>427</b>
18.1	Influencing the Evaluation Order of <switch> .....	427
18.1.1	Content Reordering in a <switch> Element .....	428
18.1.2	Attributes to Control Ordering in a <switch> .....	428
18.1.3	Examples of Reordering <switch> Children .....	429
18.2	Accommodating SMIL Language Extensions .....	430
18.2.1	Skip Content Control Attributes .....	430
18.2.2	Versioning System Test Attributes .....	431
18.2.3	Using Language Extension Attributes .....	432
18.3	Prefetch Control .....	435
18.3.1	Understanding Prefetching of Media .....	435
18.3.2	Prefetch Elements .....	436
18.3.3	Prefetch Attributes .....	437
18.3.4	Using Prefetch Control .....	437

18.4	Custom Test Attributes .....	438
18.4.1	Understanding Custom Test Attributes .....	439
18.4.2	Custom Test Elements .....	439
18.4.3	Custom Test Attributes .....	440
18.4.4	Examples Using Custom Test Attributes .....	441
18.5	Summary and Conclusion .....	443
18.6	Further Resources .....	443
<b>19</b>	<b>SMIL State .....</b>	<b>445</b>
19.1	Overview of SMIL State .....	446
19.1.1	An Example of Shared Presentation State .....	447
19.1.2	Additional Uses of State .....	450
19.2	Data Model Elements and Attributes .....	451
19.2.1	Elements for Defining the Data Model .....	451
19.2.2	Attributes for Manipulating the Data Model .....	453
19.3	State Evaluation Elements and Attributes .....	454
19.3.1	Elements for Evaluating State .....	454
19.3.2	Attributes for Evaluating State .....	454
19.4	Supporting State Interpolation and Events .....	456
19.4.1	Managing State Interpolation .....	456
19.4.2	Data Model Events .....	457
19.5	State Persistence Elements and Attributes .....	458
19.5.1	Elements for Saving/Restoring State .....	458
19.5.2	Attributes for Saving/Restoring State .....	459
19.6	Examples of Using SMIL State .....	460
19.6.1	Defining the Data Model .....	461
19.6.2	Assigning Values to Data Model Components .....	463
19.6.3	Content Control Using SMIL State .....	463
19.6.4	Restarting a Presentation with Variable State .....	465
19.7	Summary and Conclusion .....	467
19.8	Further Resources .....	468
<b>20</b>	<b>Integrating SMIL Timing in Other XML Languages .....</b>	<b>469</b>
20.1	Local Integration of SMIL Timing .....	469
20.1.1	Time Container Integration Issues .....	469
20.1.2	Time Container Integration Attributes .....	470
20.1.3	Examples of Time Container Integration .....	472
20.2	Timed Text Integration Using <code>smilText</code> .....	476
20.3	XML Integration Using SMIL Timesheets .....	478
20.3.1	Using SMIL as a Timesheet .....	478
20.3.2	Timesheet Elements .....	479
20.3.3	Timesheet Attributes .....	481
20.3.4	Examples of Using SMIL Timesheets .....	481
20.4	Summary and Conclusion .....	485
20.5	Further Resources .....	485

**Part Four SMIL Family Reference ..... 487**  
**A SMIL Profile Architecture Reference ..... 489**  
**B SMIL Implementation Reference ..... 493**  
B.1 SMIL Language Profile Player/Browser Implementations ..... 493  
B.2 SMIL Mobile Profile Player/Browser Implementations ..... 494  
B.3 SMIL Mobile Profile Player/Browser Implementations ..... 495  
B.4 SMIL Tiny Player/Browser Implementations ..... 495
