

Contents

Part I Megaplasmiids in Archaea

- Haloarchaeal Megaplasmiids** 3
Shiladitya DasSarma, Melinda Capes, and Priya DasSarma

Part II Megaplasmiids and Biodegradation

- Megaplasmiids and the Degradation of Aromatic Compounds by Soil Bacteria**..... 33
Eve Vedler

- Catabolic Plasmids Involved in the Degradation of Polycyclic Aromatic Hydrocarbons and Heteroaromatic Compounds**..... 55
Hideaki Nojiri, Masahiro Sota, and Masaki Shintani

Part III Megaplasmiids in Plant Symbionts and Pathogens

- Sinorhizobium meliloti* Megaplasmiids and Symbiosis in *S. meliloti*** 91
Frédérique Barloy-Hubler and Mohamed Jebbar

- The Megaplasmiid pNGR234a of *Rhizobium* sp. Strain NGR234** 119
Patrick Mavingui

- Ti and Ri Plasmids** 133
Katsunori Suzuki, Katsuyuki Tanaka, Shinji Yamamoto,
Kazuya Kiyokawa, Kazuki Moriguchi, and Kazuo Yoshida

Part IV Megaplasmiids in Human Pathogens

- The Virulence Plasmids of *Shigella flexneri***..... 151
Charles J. Dorman

The Three Bears and Virulence-Associated Plasmids in the Genus <i>Yersinia</i>.....	171
Sarah L. Howard, Philippa C.R. Strong, and Brendan W. Wren	
Virulence Megaplasms in <i>Bacillus anthracis</i> and Their Relatives in the <i>Bacillus cereus</i> Group.....	187
Agnès Fouet and Marie Moya	
Part V Megaplasms and Special Metabolic Functions	
Megaplasms in <i>Cupriavidus</i> Genus and Metal Resistance.....	209
Max Mergeay, Sébastien Monchy, Paul Janssen, Rob Van Houdt, and Natalie Leys	
Megaplasms of Aerobic Hydrogenotrophic and Carboxidotrophic Bacteria.....	239
Edward Schwartz	
The Megaplasms pAO1 of <i>Arthrobacter Nicotinovorans</i> and Nicotine Catabolism.....	271
Petra Ganas, Gabor L. Igloi, and Roderich Brandsch	
The pMUM Megaplasms of <i>Mycobacterium ulcerans</i> and Closely Related Mycobacteria: A Blueprint for the Synthesis of Mycolactones.....	283
Sacha J. Pidot, Nicholas J. Tobias, and Tim Stinear	
Megaplasms pKB1 of the Rubber-Degrading Bacterium <i>Gordonia westfalica</i> Strain Kb1.....	297
Daniel Bröker and Alexander Steinbüchel	
Megaplasms pMP118 of <i>Lactobacillus salivarius</i>.....	311
Paul W. O’Toole and Emma J. Raftis	
Index.....	327
