Part I: Decision Making in Supply Chains

A framework for collaborative planning and state-of-the-art 3

H. Stadler

**Simulation and optimization of supply chains: alternative
or complementary approaches? 29**

C. Almeder, M. Preusser, R.F. Hartl

Part II: Demand Management

**Revenue management and demand fulfillment: matching applications,
models and software 57**

R. Quante, H. Meyr, M. Fleischmann

**Active demand management for substitute products through price
optimisation 89**

A.A. Levis, L.G. Papageorgiou

**Customer segmentation, allocation planning and order promising
in make-to-stock production 117**

H. Meyr

**Managing product availability in an assemble-to-order supply
chain with multiple customer segments 145**

T.R. Ervolina, M. Ettl, Y.M. Lee, D.J. Peters

Inventory reservation and real-time order promising in a make-to-stock system.....	169
---	------------

R. Pibernik, P. Yadav

Part III: Inventory Management

Setting safety stocks in multi-stage inventory systems under rolling horizon mathematical programming models.....	199
--	------------

Y. Boulaksil, J.C. Fransoo, E.N.G. van Halm

Supplier managed inventory in the OEM supply chain: the impact of relationship types on total costs and cost distribution.....	219
---	------------

P.L.M. van Nyen, J.W.M. Bertrand, H.P.G. van Ooijen, N.J. Vandaele

Vendor-managed inventory and the effect of channel power	247
---	------------

B.C. Bichescu, M.J. Fry

Part IV: Applications in the Chemical Industry

Value chain management for commodities: a case study from the chemical industry.....	283
---	------------

M. Kannegiesser, H.-O. Günther, P. van Beek, M. Grunow, C. Habla

MILP-based campaign scheduling in a specialty chemicals plant: a case study.....	315
---	------------

M. Brandenburg, F.-J. Tölle

Part V: Applications in the Automotive Industry

Supply chain planning in the German automotive industry	343
--	------------

H. Meyr

Modeling and optimizing of strategic and tactical production planning in the automotive industry under uncertainty.....	367
--	------------

R. Bihlmaier, A. Koberstein, R. Obst
