Foreword by Prof. Dr. Oliver Gassmann	V
Foreword by Prof. Dr. Tom Sommerlatte	VII
Acknowledgements	XI
1 Introduction.....	1
1.1 Relevance of the topic	1
1.1.1 Relevance of customer integration	1
1.1.2 Relevance of the early innovation phase	2
1.1.3 Relevance of a risk-benefit perspective.....	3
1.2 Shortcomings of existing research.....	5
1.2.1 Conceptual research gap.....	5
1.2.2 Empirical research gap	6
1.3 Research concept	8
1.3.1 Research question	8
1.3.2 Research approach.....	9
1.3.3 Research methodology	10
1.3.4 Research design	12
1.3.5 Thesis outline.....	14
2 Literature review of key issues	17
2.1 Innovation	17
2.2 Early innovation phase	18
2.2.1 Temporal delimitation and character.....	18
2.2.2 Various structure models	19
2.3 Customer integration	26
2.3.1 Customers	26
2.3.2 Integration.....	29
2.4 Benefits and risks.....	49
2.4.1 Benefits.....	49
2.4.2 Risks	51
2.4.3 Risk-benefit balance	55

2.5 Knowledge creation	59
2.5.1 Definition of knowledge	59
2.5.2 Knowledge creation	60
2.5.3 Absorptive capacity	61
2.6 Summary	65
3 Development of an analysis model for a risk-benefit balance.....	67
3.1 General outlook on the analysis model.....	67
3.2 Tasks.....	71
3.2.1 Task description.....	71
3.2.2 Potential customer contribution.....	80
3.3 Assets.....	87
3.3.1 Benefits in the various tasks	87
3.3.2 Benefit-increasing factors	91
3.4 Liabilities	94
3.4.1 Risks in the various tasks.....	94
3.4.2 Risk-reducing measures.....	98
3.5 Propositions summary	99
4 Case studies on early customer integration.....	101
4.1 Selection and structure.....	101
4.2 Customer integration at Gallus	103
4.2.1 Company profile.....	103
4.2.2 Innovation process at Gallus.....	106
4.2.3 Innovation project: Concept for industrializing narrow-web printing.....	107
4.2.4 Company assessment of the innovation project.....	111
4.2.5 Company assessment of customer integration.....	112
4.3 Customer integration at Schindler	113
4.3.1 Company profile.....	113
4.3.2 Innovation process at Schindler.....	114
4.3.3 Innovation project: European trends in the elevator branch ..	119
4.3.4 Company assessment of the innovation project.....	121
4.3.5 Company assessment of customer integration.....	122
4.4 Customer integration at Schurter	123
4.4.1 Company profile.....	123
4.4.2 Innovation process at Schurter	125
4.4.3 Innovation project: Identification via Customer Application Talks.....	128
4.4.4 Company assessment of the innovation project.....	132
4.4.5 Company assessment of customer integration.....	133
4.5 Customer integration at Zimmer.....	134

4.5.1 Company profile	134
4.5.2 Innovation process at Zimmer	135
4.5.3 Innovation project: Opportunities for the “female empowered patient”	139
4.5.4 Company assessment of the innovation project.....	144
4.5.5 Company assessment of customer integration.....	145
5 Characteristics of successful early customer integration	147
5.1 Cross-case analysis	147
5.1.1 General advisability of customer integration.....	148
5.1.2 Tasks	151
5.1.3 Benefit-increasing factors	155
5.1.4 Risk-reducing measures.....	158
5.2 Determinants for successful customer integration.....	159
5.2.1 Size of the integrating company	160
5.2.2 Identical selection criteria as determinants.....	161
5.2.3 Contingency factor of dependence on customers	162
5.3 Conceptualization of advisable customer integration.....	166
5.3.1 Overview of the Resource Dependence Theory	166
5.3.2 Linking Resource Dependence Theory with customer integration	168
5.3.3 Conceptual model of successful customer integration	171
6 Managerial recommendations for advisable envisaged customer integration	175
6.1 Innovation task and potential customer contribution.....	175
6.2 Benefits and risks of the envisaged customer integration.....	177
6.2.1 Benefits for the concrete project.....	177
6.2.2 Risks for the concrete project	178
6.3 Modification of benefits and risks	179
6.3.1 Benefit-increasing factors	179
6.3.2 Risk-reducing measures.....	180
6.4 Quantification of benefits, risks, and their modifications.....	188
6.4.1 Basic considerations	189
6.4.2 Quantifying benefits and risks	190
6.4.3 Quantifying benefit-increasing factors and risk-reducing measures.....	192
6.5 Towards a formal decision model.....	196

7 Conclusion	201
7.1 Results	201
7.1.1 Is customer integration in the early innovation phase advisable?	201
7.1.2 Can customer integration be investigated irrespective of different individual process structures?	202
7.1.3 Which possible effects of customer integration have to be taken into account?	203
7.1.4 Can the potential success of customer integration be predicted?.....	205
7.1.5 Summary of hypotheses	206
7.2 Implications for management practice.....	207
7.3 Implications for management theory	209
7.4 Suggestions for further research	213
8 Appendix.....	215
A Special innovation tools.....	215
B List of abbreviations	219
References.....	221
