

DETAILED TABLE OF CONTENTS

List of figures	XV
List of tables	XVII
List of abbreviations	XIX
Abstract	XXI
Zusammenfassung	XXII
1 Introduction	1
2 Theoretical foundations	4
2.1. <i>The traditional view on patents</i>	4
2.2. <i>Newer views on patents</i>	5
2.3. <i>Recent developments in the patent system</i>	6
2.4. <i>Different perspectives on patenting activity</i>	7
2.4.1 Patent policy and legislation	8
2.4.2 Technology and effectiveness of patents	10
2.4.3 Industry structure and competition.....	11
2.4.4 Resources and patent management	14
3 Strategies and motives for filing patents	15
3.1. <i>Introduction</i>	15
3.1.1 The role of pendency.....	17
3.1.2 The role of publication.....	18
3.1.3 Further proceeding	20
3.1.4 Main results.....	20
3.1.4.1 Descriptive analysis	20
3.1.4.2 Multivariate analysis.....	22
3.2. <i>Review of the literature on patent pendency and publication</i>	23
3.2.1 Determinants of patent pendency.....	23
3.2.1.1 Studies with a focus on the patent system.....	23
3.2.1.2 Studies with a focus on value appropriation by firms.....	24
3.2.2 Strategically delaying the patent process	25
3.2.3 Patent application disclosure and defensive publishing	26
3.2.4 Pendency and publication in studies using patent process data.....	27
3.3. <i>Hypotheses</i>	28
3.3.1 Value components of German patent applications	28
3.3.2 Generic filing strategies	31
3.3.2.1 Early request for examination.....	32
3.3.2.2 Long pending patent applications	33
3.3.2.3 Early-lapsed patent applications	37
3.3.2.4 Summary of hypotheses.....	40
3.4. <i>Dataset</i>	40
3.4.1 Patent data.....	41
3.4.2 Interviews with inventors.....	43
3.4.3 Survey of inventors	44
3.4.3.1 Sampling and survey design	44
3.4.3.2 Questionnaire.....	48
3.5. <i>Quantifying patent filing strategies</i>	51
3.5.1 Early request for examination	53
3.5.2 Long-pending patent applications	53
3.5.3 Early-lapsed patent applications	57
3.6. <i>Relating patent filing strategies to filing motives</i>	60

3.6.1	Dependent variables	60
3.6.1.1	Variables for tests of hypotheses 1, 2.1, and 2.2.....	60
3.6.1.2	Variables for tests of hypotheses 3.1 and 3.2.....	64
3.6.1.3	Summary of dependent variables.....	65
3.6.2	Independent variables	67
3.6.2.1	Block others	67
3.6.2.2	Secure freedom to operate	67
3.6.2.3	Create insecurity	67
3.6.2.4	Gain time for evaluation	67
3.6.2.5	Gain time to find licensees.....	68
3.6.2.6	Enhance reputation	68
3.6.2.7	Forearm against infringement suits.....	68
3.6.2.8	Increase bargaining power.....	68
3.6.2.9	Secure priority	68
3.6.2.10	Use in product planned	69
3.6.2.11	Use in process planned	69
3.6.2.12	Licensing planned.....	69
3.6.2.13	FTO-blocking ratio	69
3.6.2.14	Control variables.....	69
3.6.2.15	Summary statistics of independent and control variables	71
3.6.3	Descriptive analysis of generic filing strategies and filing motives	75
3.6.4	Usage of sampling weights in regression models	77
3.6.4.1	Logistic regression.....	77
3.6.4.2	OLS regression	78
3.6.4.3	Multinomial logistic regression	79
3.7.	<i>Results</i>	79
3.7.1	Factors of patent application filing motives.....	81
3.7.2	Early requests for examination and pending patent applications	84
3.7.2.1	Motives to expedite or delay the patent process (logit and OLS)	84
3.7.2.2	Determinants of filing strategy choice (multinomial logit).....	88
3.7.2.3	Effects of filing motives on temporal ordering of events (generalized ordered logit) ...	92
3.7.3	Early-lapsed patent applications	99
3.7.4	Clusters of patent applications	102
3.7.4.1	Low value filings	103
3.7.4.2	Uncertain value filings.....	103
3.7.4.3	Defensive filings.....	104
3.7.4.4	Strategically important filings	104
3.8.	<i>Summary and discussion</i>	104
3.8.1	Summary	104
3.8.2	Discussion.....	106
3.9.	<i>Conclusion and implications</i>	108
4	Patent management and motives for filing patents.....	112
4.1.	<i>Introduction</i>	112
4.2.	<i>Review of the literature on patent management</i>	113
4.2.1	Defining patent management	114
4.2.1.1	Patent strategy and patent management.....	114
4.2.1.2	Activities of patent management	115
4.2.2	Organization of patent management	118
4.2.2.1	Size and scope.....	118
4.2.2.2	Organizational integration	120
4.2.3	Top management involvement.....	121
4.2.4	Outsourcing of patent management	122
4.2.5	Organizational measures to effectuate an increase in patenting.....	124
4.3.	<i>Propositions</i>	125
4.4.	<i>Dataset and variables</i>	126
4.4.1	Dataset	127
4.4.2	Dependent variables	127

4.4.3	Independent variables	128
4.4.3.1	Patent management responsibility	128
4.4.3.2	Integration of patent management	128
4.4.3.3	Invention characteristics	129
4.4.3.4	Firm characteristics	130
4.4.3.5	Patent application characteristics	130
4.4.4	Summary of variables	130
4.5.	<i>Results</i>	134
4.5.1	Patent management responsibility.....	137
4.5.2	Patent management integration	137
4.5.3	Invention and technology characteristics	137
4.5.4	Firm characteristics	138
4.5.5	Forward citations and technology fields	139
4.5.6	Reduced model.....	140
4.5.7	Estimation after cluster and factor analysis.....	144
4.5.7.1	Clusters of patent application filing motives	144
4.5.7.2	Factors of patent application filing motives.....	144
4.5.8	Clusters of patent management organization	145
4.5.8.1	CEO-driven integrated patent management.....	147
4.5.8.2	Patent department-driven patent management.....	147
4.5.8.3	Patent attorney-driven patent management.....	148
4.6.	<i>Summary and discussion</i>	148
4.7.	<i>Conclusion and implications</i>	150
5	Patent arms races	152
5.1.	<i>Introduction</i>	152
5.2.	<i>Review of the literature on patent arms races</i>	155
5.2.1	Patenting and the fragmentation of intellectual property rights	155
5.2.1.1	Fragmented patent ownership.....	155
5.2.1.2	Concentrated patent ownership.....	156
5.2.2	First mover motives and triggers of an increase in patenting per R&D	157
5.3.	<i>Method and data</i>	160
5.4.	<i>Results</i>	161
5.4.1	Patenting and market structure.....	161
5.4.1.1	Market structure and competition	161
5.4.1.2	Low fragmentation of patent ownership	162
5.4.1.3	Patenting activity	163
5.4.2	Arms race versus alternative explanations	165
5.4.2.1	Manroland and KBA.....	166
5.4.2.2	Goss	168
5.4.2.3	WIFAG	169
5.4.3	KBA's and Manroland's patent portfolios	169
5.4.4	Why KBA increased patenting.....	171
5.4.4.1	Perceived ineffectiveness of patents	172
5.4.4.2	Patents as signals	172
5.4.4.3	Patent enforcement and licensing	173
5.4.5	Effectuating rapid increases in patenting	173
5.4.6	Timing and trigger events	176
5.5.	<i>Summary and discussion</i>	176
5.5.1	Summary.....	176
5.5.2	Welfare implications	177
5.5.2.1	Welfare implications of patenting.....	177
5.5.2.2	Welfare implications of opposition and litigation.....	178
5.5.3	Possible long-term outcomes	178
5.5.4	Modeling arms races	179
5.6.	<i>Conclusion and implications</i>	181

6 Summary and conclusion.....	183
6.1. <i>Summary</i>	183
6.2. <i>Conclusion</i>	184
Appendix	187
